DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
8th November 1913.

Burma.—During the week the rainfall was good in Lower Burma and light over most of Upper Burma. Agricultural operations are progressing normally. Standing crops are generally in good condition. Cattle are healthy and pasturage is sufficient. The price of unhusked rice continues slightly above normal but tends to fall.

Assam.—During the week the weather was dry and seasonable. Ploughing for and sowing of mustard and pulses, harvesting of winter rice and pressing of sugarcane continue. The prospects of tea are good and those of transplanted winter rice fair to good. The average price of common rice is stationary. Cattle disease is reported from five districts.

Bengal.—No rain fell during the week throughout the Province. The preparation and sowing of lands for spring crops are still in progress. The condition and prospects of the winter crops are on the whole good. The condition of agricultural stock is fair. Cattle disease is reported from six districts. Reports of slight damage by insect pests have been received from two districts. The average price of common rice fell by about 0·7 per cent, as compared with that of the previous week. Agricultural loans were issued in three districts and gratuitous relief was paid in one district of the Burdwan division.

Bihar and Orissa.—There was no rain during the week and the weather was seasonable. The sowing of spring crops is going on. Harvesting of early winter rice continues in Orissa and Chota Nagpur. Standing crops are doing well but more rain is wanted for the late sown rice crop in the flood affected tracts of Cuttack and Balasore. The price of common rice has fallen in Orissa and Chota Nagpur and has risen in Bihar. The supply of fodder is sufficient except in parts of Patna. Cattle disease is reported from nine districts. The prospects of standing crops in the Feudatory States of Orissa are good.

United Provinces.—With the exception of slight showers in the Himalayan, Western Submontane, Upper Doab and North Central districts, the week was rainless. More rain is urgently needed in all but parts of the Himalayan and Eastern districts. Standing crops are suffering from drought over the greater part of the Provinces. Irrigation and preparation of land for spring crops are still in progress. Sowing of spring crops is nearing completion. Cattle disease is still reported from some parts of the Provinces. Takavi is being distributed for seed, bullocks and wells. Scarcity of fodder is increasing and water also is running short in Bundelkhand and in parts of the Unao and Fatehpur districts. Prices are fluctuating with an upward tendency.

Punjab.—Slight rain fell during the week in some of the Submontane districts. Elsewhere the weather has been dry. Rain is urgently wanted in the dry area in the south-east where sowings of spring crops on unirrigated lands are seriously restricted for want of moisture. Elsewhere standing crops are generally average to good and sowings of spring crops are normal. Harvesting of autumn crops continues, except in the south-east where it has been completed, and the outturns are generally average to good. Cattle are generally healthy but some scarcity of fodder is being felt in the south-east. Prices of wheat are generally close to normal and those of other grains a little above normal.

North-West Frontier Province.—The week was rainless and the weather was cold and at times cloudy. The condition of the standing crops is average. Harvesting of autumn crops is in progress and the outturn is expected to be normal. Sowings of spring crops continue. Irrigation from the Paharpur canal has stopped. The condition of cattle is good. The supply of fodder and water is generally sufficient. Prices are high but nearly stationary. In the Bannu tahsil the prices of wheat and maize are rising and those of *bajra* and *jawar* falling.

Jammu.—During the week slight rain fell. Prices are fluctuating. Wheat sells from 10 to 15 and maize from 11 to 20 seers per rupee. The condition of the standing crops is fair. Cattle disease of a mild type prevails in the Jammu and Rampur tahsils. Fodder is sufficient.

Kashmir.—Slight rain fell during the week. The sowing of spring crops is in progress. Cattle disease is reported in some villages of the Valley. Prices are normal. Water and fodder are sufficient.

Rajputana.—No rain fell during the week and the weather was generally clear and cool. Rain is badly needed for the sowing of spring crops in the Eastern States and Central Rajputana including Ajmer-Merwara where the outturn of the recent harvest was unfavourable and fodder also will soon be insufficient. Cattle are generally doing well. Water is generally sufficient. Prices are generally high and stationary. Cattle emigration continues in Ajmer-Merwara, Marwar, Jaipur, Kishengarh, Bharatpur and Karauli.

Central India.—No rain fell during the week and the weather was clear and cool. More rain is wanted in parts of Gwalior, Baghelkhand, Bundelkhand and in the Rampura Bhanpura and Alampur pergunas of Indore. Harvesting of autumn crops and sowing of spring crops are in progress except in parts of Gwalior and Bundelkhand where operations have been stopped for want of rain. Standing crops are bad in parts of Gwalior and Bundelkhand, indifferent in Baghelkhand and fair in Bhopal. Crops have been damaged by want of rain in parts of Baghelkhand, Bundelkhand and the Alampur pergunas of Indore and in Bhopal. Cattle disease prevails in parts of the Jind district of Gwalior, the Nagod State and parts of the Rewa district of Baghelkhand. The condition of cattle is bad in parts of Bundelkhand. The supply of fodder is bad in parts of Gwalior, indifferent in Baghelkhand and scarce in parts of Bundelkhand. Prices are rising in Gwalior, Bhopal and parts of Bundelkhand, are above normal in Baghelkhand and steady elsewhere.

Central Provinces.—No rain fell during the week. The days were warm and the nights and mornings cool. The picking of cotton, the reaping and threshing of autumn crops and the sowing of spring crops continue. Rain is needed in many places for the spring crops especially in the Jubbulpore and Nerbudda divisions. The supply of fodder and water is sufficient except in parts of Saugor and Damoh. The price of gram rose by 2 seers per rupee in Narsingpur. Elsewhere the variations in the prices of food grains were unimportant.

Feudatory States.—The rainfall was *nil*. Harvesting of autumn crops and sowing of spring crops are in progress. The price of gram rose in Udaipur and that of rice fell in Sirguja by 2 and 4 seers per rupee respectively.

Bombay.—The standing crops have been slightly damaged by rats in Karachi, Hyderabad, Thar and Parkar, Kaira, Palanpur and Rewa Kantha, by insects in Broach, and by blight in Bijapur. They are withering in parts of Ahmednagar and are in good condition elsewhere. Harvesting of autumn and sowing of spring crops continue. The picking of cotton is progressing in parts of Sind, the Deccan, Kathiawar and Baroda. The supply of fodder is generally sufficient. Agricultural stock are good and sufficient.

except in parts of Ahmednagar and Poona. Drinking water is adequate. Water for irrigation is deficient in parts of Ahmednagar, Sholapur and Satara. Prices are high with a tendency to rise. Stocks of grain are sufficient.

Hyderabad.—No rain fell during the week and the prospects of the season are unchanged.

Mysore.—During the week the rainfall was *nil*. The price of *rugi* rose slightly in Kolar and that of rice in Hassan. The markets are well supplied. Standing crops are in fair to good condition but the want of rain is felt in the greater part of the State. Harvesting is in progress with outturn poor to fair. The prospects of the season are fair to good. Cattle are generally healthy. Water and fodder are available.

Coorg.—During the week the rainfall was insufficient. Agricultural prospects are good. The picking of cardamom continues and that of coffee has commenced. The prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—During the week the rainfall was fair to good in the Nilgiris, the West Coast except South Canara and the Carnatic except Nellore and *nil* or light elsewhere. Standing crops are fair to good. Harvesting of dry crops and paddy is proceeding with outturn fair to normal. Sowings of dry crops and paddy are proceeding normally for the most part. The condition of cattle is generally good. The supply of water is insufficient for irrigation in some places. Fodder is generally sufficient. Prices show a downward tendency. Reports from North Arcot, Trichinopoly and the Southern Districts have not been received.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
15th November 1913.

Burma.—The rainfall was heavy in Lower Burma and good over most of Upper Burma. Agricultural operations have been retarded slightly by rain. Standing crops are generally in good condition. Cattle are healthy and pasturage is sufficient. The price of unhusked rice continues slightly above normal.

Assam.—During the week the weather was dry and seasonable. Ploughing for and sowing of mustard and pulses, harvesting of winter rice and pressing of sugarcane continue. Sowing of summer rice seedlings has commenced in parts of Sylhet. The prospects of tea are good and those of transplanted winter rice fair to good. The average price of common rice is stationary. Cattle disease is reported from five districts. Fodder is insufficient in Sylhet and Kamrup.

Bengal.—During the week no rain fell throughout the Province except some slight showers in Chittagong. Sowing of spring crops is in brisk progress and prospects so far are good. Harvesting of early winter rice has commenced in some districts. The condition of standing winter rice and sugarcane is on the whole good. Cattle disease is reported from six districts. The average price of common rice has fallen by about 1 per cent, as compared with that of the previous week. Agricultural loans were issued in Bankura, Midnapur and Howrah.

Bihar and Orissa.—There was no rain during the week and the weather was generally seasonable. Sowing of spring crops still continues. Harvesting of winter rice continues in Orissa and Chota Nagpur and has commenced in parts of Bihar. Prospects of standing crops are on the whole good. More rain is, however, wanted for them in Orissa. The price of common rice has fallen as compared with that of the previous week. The supply of fodder is sufficient except in the flood affected parts of Patna. Cattle disease is reported from nine districts. Prospects of standing crops in the Feudatory States of Orissa are good.

United Provinces.—The week was rainless. More rain is urgently needed in all but the south-eastern districts. Standing crops are suffering from drought except in a few eastern districts. Irrigation and preparation of land for spring crops are still in progress. In some parts sowing of spring crops is nearing completion while that of poppy has commenced. Cattle disease is still reported from some districts of the Provinces. *Takavi* is being distributed for seed, bullocks and wells. Scarcity of fodder is increasing and water is running short in Bundelkhand and in the Aligarh, Unao and Fatehpur districts. Prices are high and fluctuating.

Punjab.—The weather was dry. Rain is urgently wanted in the south-east dry area where sowings of spring crops on unirrigated lands are seriously restricted for want of moisture. Elsewhere sowings are generally normal. Harvesting of autumn crops, except that of sugarcane and cotton, has been completed and the outturn is generally average to good. The condition of standing sugarcane and cotton crops is average to good except in parts of the south-east where on unirrigated tracts it is poor. Cattle are generally healthy but fodder is getting scarce in the south-east. Prices of wheat are generally close to normal and of other grains a little above normal.

North-West Frontier Province.—The week was rainless and the weather was cold and at times cloudy. The condition of standing crops is average. Harvesting of autumn crops continues and the outturn is expected to be normal. Sowings of

spring crops are proceeding. Cattle are in good condition. The fodder and water-supply is generally sufficient. Prices of food grains are high but are tending to rise in the Bannu tahsil. The price of maize is falling in Peshawar.

Jammu.—Rainfall *nil*. Prices are fluctuating. Wheat sells from 10 to 14 and maize from 11 to 19 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Basohli tahsil. Fodder is sufficient.

Kashmir.—No rain fell during the week. Sowings of spring crops are in progress. Cattle disease is reported in two districts. Prices are normal.

Rajputana.—No rain fell during the week and the weather was clear and cool. Rain is badly needed for the sowing of spring crops in the Eastern States and Central Rajputana including Ajmer-Merwara where the outturn of the recent harvest was unfavourable and fodder also is insufficient. Cattle are generally doing well. Water is generally sufficient. Prices are generally high and stationary. Cattle emigration continues in Ajmer-Merwara, Marwar, Jaipur, Kishengarh, Bharatpur and Karauli.

Central India.—No rain fell during the week and the weather was clear and cool. More rain is wanted in parts of Gwalior, Baghelkhand, Bundelkhand and in the Rampura-Bhanpura and Alampur pergunas of Indore. Harvesting of autumn crops and sowing of spring crops are in progress except in parts of Gwalior and Bundelkhand where operations are stopped for want of rain. Standing crops are bad in parts of Gwalior and the Alampur pergunas of Indore, indifferent in Baghelkhand and fair in Bhopal. Autumn crops are withering in Bundelkhand. Crops have been damaged for want of rain in parts of Baghelkhand and the Alampur pergunas of Indore and in Bhopal. Cattle disease prevails in Nagod and parts of the Rewah district of Baghelkhand. The fodder supply is bad in parts of Gwalior, indifferent in Baghelkhand and scarce in parts of Bundelkhand. Prices are rising in Gwalior, Bhopal and parts of Bundelkhand, are above normal in Baghelkhand and steady elsewhere.

Central Provinces.—The weather has been clear and cool. Good showers of rain were received in the Drug and Raipur districts after the close of the week. No rain was received elsewhere. Harvesting and threshing of autumn crops and picking of cotton are in progress. Rain is required for spring crops particularly in the Vindhyan, Nerbudda Valley and Satpura districts where young plants are withering for lack of moisture. Insufficiency of fodder and water is reported from Saugor and Damoh. Agricultural stock is generally in good condition. Prices of food grains remained fairly steady.

Feudatory States.—No rain fell during the week. Reaping of autumn crops is in full swing. Rice fell by 2 seers per rupee in Jashpur.

Bombay.—Standing crops have been damaged slightly by rats in Ahmedabad, Kaira, Palanpur and Rewa Kantha, by insects in parts of Broach, Nasik, Poona and Bijapur and by blight in Bijapur. They are withering in parts of Ahmednagar, Poona and Sholapur and are in good condition elsewhere. Harvesting of autumn crops and sowing of spring crops continue. Picking of cotton continues in parts of Sind, the Deccan, Kathiawar and Baroda. The fodder supply is sufficient except in parts of Poona, Sholapur and Satara. Agricultural stock is sufficient except in parts of Ahmednagar and Poona and good except in Sholapur. Drinking water is generally adequate. Irrigation is deficient in parts of Ahmednagar, Sholapur and Satara. Prices are high but fluctuating. Stocks of grain are sufficient.

Hyderabad.—Autumn crops are being harvested and cotton is being picked. Crops have been damaged somewhat by insects in parts of the Raichur, Gulbarga, Mahbubnagar and Nalgonda districts. The early rice crop is fair to good and is being harvested. It has suffered in parts of the Gulbarga, Mahbubnagar and Karimnagar districts and in a

few other isolated parts. Sowings of spring crops continue. Crops are being weeded and are reported to be fair to good except in a few places. Fodder scarcity prevails in three talukas, water scarcity in four and cattle disease in two. Prices :—Wheat $6\frac{1}{4}$, coarse rice $5\frac{1}{4}$ and *juar* $11\frac{1}{4}$ seers per rupee. White *juar* is selling at $10\frac{1}{4}$ seers per rupee in Hyderabad City. The highest price in districts is 8 seers in Mahbubnagar and the lowest 20 seers in Adilabad.

Mysore.—During the week the rainfall was light to *nil*. The price of rice has risen slightly in the Bangalore and Hassan districts and has fallen slightly in Mysore. The price of *ragi* has risen slightly in Bangalore. Markets are well supplied. Standing crops are in fair to good condition but want of rain is felt in the greater part of the State. Harvesting continues in parts with outturn poor to fair. The prospects of the season are fair to good. Cattle are generally healthy except in parts of the Kadur and Shimoga districts. Water and fodder are available.

Coorg.—Agricultural prospects are good. Picking of cardamom and coffee continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient. Some rain is required.

Madras.—No rain fell during the week in South Canara, the Circars and the Decan except Cuddapah. Light to fair rain was received in Cuddapah, Nellore, Chittoor, Coimbatore, Pudukkottai, Malabar and Cochin and good to very heavy rain elsewhere. Standing crops are fair to good. Harvesting of dry crops and paddy is proceeding with outturn fair to normal. Sowings of dry crops and paddy are proceeding normally for the most part. The condition of cattle is generally good. The supply of water is insufficient for irrigation in some places. Fodder is generally sufficient. Prices show a downward tendency.

2. That the distillation, storage and removal of spirit shall be conducted under the supervision and general control of an officer appointed by the Excise Commissioner for Central India hereinafter referred to as the distillery officer, and that the said officer, shall, at all times, be permitted to gauge and prove the spirit in the distillery. That the licensee shall be responsible for the trenching or removal of all spent wash and used mohwa and generally for maintaining the premises in a sanitary and inoffensive condition.

3. That the licensee shall take all reasonable precautions to ensure the purity of the spirit and in particular that he shall take the following precaution, *viz.*, the return to the still for re-distillation of all spirit of strength weaker than 80 under proof, and of all tailings and foreshots.

5. That the licensee shall provide and maintain suitable and secure fastenings for all receivers and vessels used for the storage of spirit and for all cocks capable of being so manipulated as to admit of the removal of spirit from the receivers, vessels used for the storage of spirit, or pipes connected therewith. 9. That the licensee shall keep such accounts of materials used and of spirit produced, stored and issued for removal from the distillery or for re-distillation as may be prescribed by the Excise Commissioner. 12. That the licensee shall, on the expiry or determination of this license, not be entitled to demand the acquisition by the States or by Government or by his successor, of the building or of any of the apparatus, appliances or fittings provided by him at the distillery.

13. That any penalty leviable under this license may be recovered from the licensee in the manner provided by Section 17 of the Mhow, Neemuch and Nowgong Excise Law, 1898, or may be deducted from the sum deposited by him as security under the license held by him for the wholesale supply of country spirit for the Nowgong Cantonment or from any sum due to him under the conditions of that license.

14. That on the expiry, cancellation or determination of the said license for the whole-sale supply of country spirit, this license shall absolutely determine and cease to be in force, unless the Excise Commissioner for Central India sees fit to continue it for the supply by the contractor of other areas.

15. That the licensee shall be bound by the provisions of the Mhow, Neemuch and Nowgong Excise Law, 1898, and of all rules from time to time made thereunder.

16. That the licensee's distillery building mentioned in paragraph 1 of this license, and his appliances and stock at the distillery are hereby hypothecated to the Excise Commissioner for Central India as security for the fulfilment of the conditions of this contract and also for the fulfilment, to the satisfaction of the Excise Commissioner for Central India, of the conditions of the warehouse licenses granted to the licensee for the supply of spirit from the distillery mentioned in clause 1 to the _____

RULES FOR THE CONDUCT OF BUSINESS AT THE NOWGONG DISTILLERY.

1. The distillation, storage, blending and removal of spirit shall be conducted under the supervision and general control of the distillery officer.

2. The licensee shall take all reasonable precautions to ensure the purity of the spirit.

3. No receivers, tanks or vats for the reception of spirit shall be used in the distillery except such as shall have been approved by the Excise Commissioner for Central India. All such receivers, vats or tanks shall be set up to the satisfaction of the Excise Commissioner for Central India, and so as to admit of their contents being accurately gauged or measured, and shall be fitted with proper dipping rods so adjusted to fixed dipping places that the contents thereof may, at any time, be ascertainable. They must be fixed at a proper

height and fitted with cocks or discharge pipes so that they can be emptied without being moved, and should be slightly sloped so that they may drain dry through the cocks or pipes without difficulty. The receivers and the storage vats and tanks shall be connected with the condensers and with each other by such pipes and pumps as may be required by the Excise Commissioner for Central India. Excepting by means of such pipes and pumps and to such receivers or storage vats or tanks no spirit shall be removed from the still or condenser otherwise than in the presence and with the permission of the distillery officer. Nor shall any spirit be removed, otherwise than in the presence and with the permission of such officer, from any receiver, tank or vat in the distillery.

4. The licensee shall provide and maintain suitable and secure fastenings for all receivers and vessels used for the storage of spirit, and for all cocks capable of being so manipulated as to admit of the removal of spirit from the receivers, vessels used for the storage of spirit, or pipes connected therewith. To all such fastenings, as well as to the doors of all rooms in which spirit is stored, locks provided by Government will be affixed, and the keys thereof kept in the custody of the distillery officer. The licensee may also affix his own locks to all such fastenings and doors, provided that he shall always at once remove such locks on the requisition of the distillery officer or of any officer to whom the distillery officer is subordinate.

5. No saccharine or other material which might obscure the hydrometer reading shall be added to spirit at the distillery, and the spirit distilled shall not be adulterated by the addition of any substance other than water.

6. No spirit shall be removed from the distillery excepting—

- (a) on issue to licensed vendors. Such issues shall be conducted in accordance with the rules in force for the management of bonded warehouses, and the distillery officer shall be deemed to be the officer in charge of the warehouse for the purposes of those rules;
- (b) for supply to such bonded warehouses as may be prescribed by the Agent to the Governor General in Central India in this behalf. Such removals shall be conducted in accordance with the following rules.

7. Spirit consigned to warehouses shall before removal be gauged and proved by the distillery officer, and shall be removed under passes issued by him in triplicate. One copy shall be sent by the distillery officer direct to the officer in charge of the warehouse, and another given to the licensee, by whom it will be presented to the said officer. The third shall be retained by the distillery officer. The warehouse officer will retain one copy, and will return one copy direct to the distillery officer for record, after endorsing on it the particulars of the spirit received. This copy will be pasted by the distillery officer to its counterfoil. The pass will protect the consignment only so long as it travels by the most direct route to its destination and as bulk remains unbroken.

The licensee shall be responsible for the conveyance to the warehouse of the spirit in its entirety, and shall be liable to pay duty, at the rate leviable in the Nowgong Cantonment, on all spirit despatched from the distillery which he shall fail to produce at the warehouse within such period as may be prescribed in that behalf by the Excise Commissioner for Central India; or to account to the satisfaction of the Excise Commissioner for Central India for his failure to do so. Provided that the allowances for dryage in transit hereinafter entered in respect of spirit despatched to each warehouse, on all casks that arrive with the seals intact, shall be deducted from any deficiency that may occur in transit. Provided also that the spirit shall on arrival at a warehouse be disposed of in accordance with the rules from time to time in force for the conduct of business at such warehouse.

The allowances referred to above shall be as follows :—

8. The gauging of spirits for removal shall be effected by actual measurement in standard vessels provided for the purpose, and no other method of gauging spirits for issue shall under any circumstances be adopted without the previous sanction of the Agent to the Governor General. The standard vessels shall at least once a quarter be tested by the officer in charge against a measure to be specially set apart for the purpose, and the result recorded in a book to be kept for this purpose. On no account is a measuring vessel to be locally repaired or adjusted without the previous sanction of the Excise Commissioner for Central India, and every vessel so repaired or adjusted under the Excise Commissioner's sanction shall thereafter be tested against the measure set apart for the purpose before it is again taken into use.

9. Before spirits are proved for issue, they must be well stirred so that the true average temperature and gravity may be obtained. If the casks in which removal is to be made are to be filled from a larger cask, vat or tank, it will suffice to prove the spirits in such larger cask, vat or tank once for all before any of the smaller casks are filled. But in this case the officer in charge must be careful to see that no addition is made to the contents of the larger cask, vat or tank while the filling of the smaller ones is in progress. If such larger cask, tank or vat is ordinarily in communication with the outer air or with any other receptacle by a pipe

or other means by which fluid can be passed into it, such pipe or other means of communication must, during the filling of vessels for issue, be securely closed by a cock or valve secured by an excise lock. If these conditions are not complied with, the spirit in each cask must be separately proved before removal.

10. Spirits shall be issued for removal to warehouses only in steel hogsheads or in hogsheads of the shape known as "English" hogsheads. No such hogshead shall be taken into use until it has been gauged by the officer in charge of the distillery and marked at the cost of the licensee with the following particulars :—

- (a) Name of distillery.
- (b) Number of hogshead.
- (c) Capacity of hogshead.

A register of hogsheads for issue shall be maintained by the officer in charge of the distillery, and each such hog-head in use shall be gauged by him at least once in twelve months, the date of gauging and any alteration in the capacity of the hogshead being entered by him in the register. The officer in charge of the distillery may refuse to permit the issue of spirit in any hogshead which is, in his opinion, insecure or otherwise unfit (for reasons to be recorded by him) for the transport of spirit.

11. All hogsheads in which spirits are removed from the distillery shall before removal be sealed by the officer in charge. It is the duty of the licensee to prepare the receptacle, to the satisfaction of the distillery officer, for sealing. The seal used should be the officer's private seal, which should be of sufficiently intricate design to render its reproduction difficult.

12. The officer in charge of the distillery and the licensee, respectively, shall maintain in such manner as may be directed by the Agent to the Governor General in Central India such registers and accounts relating to the manufacture, storage, reduction, blending and issue of spirit, to the receptacles, vessels, apparatus, utensils and furniture in use at the distillery, and to the persons employed at the distillery, as may, from time to time, be prescribed by the Agent to the Governor General in Central India, and shall submit such copies or extracts therefrom at such intervals and to such officers as may be prescribed by the Agent to the Governor General in Central India. Such registers, accounts, copies and extracts shall also, at any time during the hours when the distillery is opened for the transaction of business, be available, for the inspection of the Cantonment Magistrate, Nowgong, the Political Agent in Bundelkhand and the Excise Commissioner for Central India, and of such other officers and persons as may be specified by the Agent to the Governor General in Central India in this behalf.

13. An account of stock will be taken at the end of every quarter; and the licensee shall pay to Government at the end of each year of the currency of his license duty at the rate for the time being in force in the Nowgong Cantonment on all spirit which may not be forthcoming, and for which he shall be unable to account to the satisfaction of the Excise Commissioner for Central India in excess of an allowance of 2 per cent. which will be made for wastage. Provided that the penalties leviable under this rule or under rule 7 shall not be enforced in respect of spirit that may be shown to the satisfaction of the Excise Commissioner for Central India to have been wasted or destroyed through accident or other unavoidable cause. Wastage for the purpose of collection of duty on the deficiency (if any) in store at the distillery shall be calculated annually at the end of each year of the currency of the license. The allowance will be calculated on the balance in hand at the commencement of the year *plus* the quantity produced during the year, exclusive of weak spirit issued for re-distillation. In the calculations required for the purposes of this rule, all spirits received, transferred, or in store shall be reduced to their equivalent in terms of London proof. Government will not be responsible for the destruction, loss or damage of spirit or of the licensee's apparatus or appliances by fire or theft or by gauging, proof or by any other cause whatever. In case of fire or other accident the officer in charge of the distillery shall attend the distillery with the least possible delay.

14. No operations requiring the presence of the distillery officer shall be carried on excepting between the hours of 7 to 11 A.M., and 2 to 6 P.M. Provided that the Excise Commissioner for Central India may for sufficient reason modify or extend generally or on specified occasions, subject to such conditions, if any, as he considers proper regarding payment by the licensee for overtime, the hours specified in this rule. The holidays to be allowed, exclusive of Sundays, are only those notified under the Negotiable Instruments Act. Sundays, New Year's Day, the King's Birthday and Christmas Day are alone to be treated as close holidays. On other holidays the distillery officer shall attend for at least two hours for the transaction of urgent business.

NOTE.—This will not be deemed to prohibit the continuance of distillation before 7 A.M. or during the distillery officer's absence between 11 A.M. and 2 P.M., provided that the pipe discharging from the condenser, and the receivers and all pipes, taps, etc., by which spirit can be removed from the still are so connected and secured by locks affixed by the distillery officer as to preclude the removal of spirit in his absence. In the event of the licensee requiring the presence of the distillery officer between the hours of 6 P.M. and 7 A.M. or on a close

holiday, or for more than two hours on any other holiday, he shall give him at least 24 hours' notice and shall pay him overtime on the following scale—

6 annas per hour between	{ 6 P.M. and 10 P.M. or 5 A.M. and 7 A.M.
8 annas per hour between	{ 10 P.M. and mid-night or 3 A.M. and 5 A.M.
12 annas per hour between	mid-night and 3 A.M.
4 annas per hour between	7 A.M. and 6 P.M.

15. The guard maintained at the distillery shall ordinarily consist of three peons, who will be required to reside on the premises and one of whom will be constantly on duty at the main gate of the distillery, which (unless work requiring it to remain open is in progress with the permission of the Inspector) will be locked at night. The other entrances, if any, to the distillery shall ordinarily be kept locked, the key remaining in the custody of the distillery officer, and shall be opened only under the orders of such officer, by whom a peon shall be posted at each such entrance so long as it remains open.

16. The distillery and the officers employed therein shall be under the direct control of the Cantonment Magistrate, Nowgong, subject to the orders of the Excise Commissioner for Central India.

17. The distillery shall be open only for the entrance and exit of persons having business thereat. Ordinarily, excepting with the permission of the Cantonment Magistrate, Nowgong, no person other than the officers mentioned in rule 12 and officers and persons specified under rule 12, the members of the establishment employed at the distillery, the licensee and his agents and servants shall be admitted. A register shall be kept of the names of all persons employed by the licensee, and such persons may, under the orders of the Excise Commissioner for Central India, be required to wear, whilst in the distillery, a badge or distinctive uniform to be provided by the licensee. The Excise Commissioner for Central India may, for reasons recorded in writing, direct that the name of any person be struck off the register, and that he be excluded from the distillery. All persons other than the officers mentioned in rule 12 entering the distillery shall, in respect of their conduct and proceedings while in the distillery, be under the orders of the officer in charge, and shall, unless they are persons who have been specified under rule 12, be liable to search, on quitting the premises, at the discretion of that officer. Smoking, and the use of matches or of naked lights in the storage rooms, are strictly prohibited. If lights are necessary, closed lanterns (to be supplied by the licensee) of a make approved by the Excise Commissioner for Central India shall be used.

18. The officer in charge may eject and exclude from the premises any person whom he may find to have committed or to be about to commit any breach of these rules or of the provisions of the Excise Law, or who shall be intoxicated, riotous, or disorderly. Any action taken by such officer under this rule shall immediately be reported by him to the Cantonment Magistrate.

19. If it comes to the knowledge of the licensee or his agent that any person employed by such licensee in the manufacture, storage, receipt, blending, transport or issue of spirits has committed any breach of the Excise Laws or of the engagements entered into by such licensee, it shall be his duty to report the matter through the officer in charge of the distillery to the Cantonment Magistrate, and to comply with the directions of that officer respecting the continued employment of such person.

20. In case of any breach of these rules or of the conditions of the license, or in the case of any attempt, by altering the capacities of receptacles or otherwise, to deceive the officer in charge in gauging or proving, either by the licensee or his agent, or, with his connivance and privity, by any person in his employment, it shall be competent to the Excise Commissioner for Central India to impose upon the licensee a fine not exceeding the sum of Rs. 50 for every such breach of such rules or conditions or attempt to deceive or, at the option of the Excise Commissioner for Central India, to declare the security, if any, deposited by the licensee under his distillery license or under any other license held by him forfeited, and to cancel his distillery license and any other excise license held by him.

21. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding rule shall not be held to prevent the prosecution of any person for any offence which may have been committed against the provisions of the Excise Law or other law for the time being in force and relating to the excise revenue. If the licensee or his agent shall be convicted on prosecution before a Magistrate of any offence against the Excise Law, or other law for the time being in force and relating to the excise revenue, it shall be lawful for the Excise Commissioner for Central India to declare his license forfeited.

22. Any duty or penalty leviable under these rules may be recovered from the licensee in the manner provided by section 17 of the Excise Law, or may be deducted from the sum deposited by him as security under the license held by him for the wholesale supply of country spirit in the Nowgong Cantonment, or from any sum due to him under the conditions of that license.

23. Any sum deducted under these rules from any amount deposited by the licensee as security shall be replaced by the latter within 15 days from the date of receipt of a notice from the Excise Commissioner for Central India informing him of such deduction having been made.

24. On the expiry of his license (unless a fresh license shall have been granted him) or if his license shall be cancelled or suspended, the licensee shall be bound forthwith either (if a license for the distillery is granted to any other person) to transfer to such person (by mutual arrangement) all spirits remaining in the distillery, or to pay the duty on, and to remove, all spirits remaining within the distillery, and, if he shall fail to do so within 10 days of the receipt of written notice from the Excise Commissioner for Central India, the cost of any establishment which it may by such failure be rendered necessary to employ at the distillery may be recovered from the defaulter. In the event of continued neglect, the spirits shall be liable to be forfeited at the discretion of the Excise Commissioner for Central India.

No. 1708-C.—In exercise of the powers conferred on him by Sections 5 and 41 (7) of the Mhow, Neemuch and Nowgong Excise Law, 1898, and of all other powers enabling him in this behalf the Honourable the Agent to the Governor-General in Central India is pleased to make the following rules relating to the forms and accounts to be maintained at the Nowgong Distillery.

RULES RELATING TO FORMS AND ACCOUNTS AT THE NOWGONG DISTILLERY.

1. All spirit produced at the distillery (whether by distillation or by re-distillation) will be entered in a register in Form I, a separate set of pages being allotted to each vat, cask, or receiver in which such spirit is stored.

2. Separate vats will be set aside for the storage of spirit for issue to licensed vendors at the strengths of 25 Under Proof and 60 Under Proof. A separate register in Form II will be maintained for the record of spirit stored in each of these issue vats, a separate set of pages will be allotted to each vat, and vats containing spirit 25 Under Proof will be grouped separately in the register from those containing spirit 60 Under Proof.

On spirit being transferred to an issue vat, the entry in columns 19—21 of Register I will be the quantity actually issued from the vat from which it was taken. The quantity shown in column 3 of Register II will be its equivalent at the reduced strength at which it is stored for issue. (For instance if 100 gallons 10 Under Proof are reduced to 25 Under Proof the entries in Columns 19—21 of Register I will be :—

Column 19—100

„ 20—10 Under Proof.

„ 21—90

while the entry in column 3 of Register II will be 120 (120 gallons 25 Under Proof being equivalent to 90 proof gallons). Whenever spirit contained in an issue vat is proved, the actual strength will be entered in the remarks column of Register II. The entries in column 6 of this register will be written up daily from the totals in Register IV.

3. On the 10th, 20th and last day of each month the entries in columns 7, 11, 14, 18, 21, 25, 29, 32 and 33 of Register I relating to each vat will be totalled and the totals entered in Register I A. Similarly the entries in columns 3 and 5-8 of Register II will be totalled (separately for spirit of the two different strengths) and the totals entered in Register II A. Separate portions of this register will be set aside for spirit of the strengths of 25 Under Proof and 60 Under Proof. On the first day of each month the entries in registers I A and II A will be totalled, and extracts in duplicate showing the entire transactions for the month forwarded to the Cantonment Magistrate.

4. The pass prescribed by rule 7 of the distillery rules for the removal of spirit to warehouses will be in Form V. The entries in columns 3 (a), 4 (a) and 5 (a) will be made at the distillery, and the pass signed by the distillery officer. Those in columns 3 (b), 4 (b) and 5 (b) will be made by the officer in charge of the receiving warehouse, and the certificate at the foot of the pass signed by him.

To each pass a reasonable period of validity will be assigned. The maximum period of validity that should be allowed to passes issued to each warehouse is as follows, but in the dry season shorter periods should ordinarily suffice :—

Chattarpur	2 days
Gulganj	5 „
Panna	7 „
Ajalgarh	10 „
Amanganj	10 „
Datia	4 days exclusive of period occupied in transit by rail from Harpalpur to Datia.

5. Entries showing particulars of each consignment of spirit despatched to a bonded warehouse will be made in columns 1—5 of register III at the time of despatch of the consignment, those in columns 6—9 when the pass is received back from the warehouse.

It is the duty of the officer despatching the consignment to bring to the notice of the Cantonment Magistrate any delay in the arrival of the consignment at the warehouse or in the return of the pass, any deficiency in excess of the dryage permissible under the rules, and any tampering with seals or other irregularity noticed by the warehouse officer to whom the spirit is consigned.

A separate set of pages will be allotted to each warehouse to which spirit is consigned.

As the entries are made in Register III, similar entries will be made in two copies of the register, which will contain the entries relating to all consignments despatched during the month and will be submitted to the Cantonment Magistrate on the 15th day of the following month.

The entries in column 3 will be totalled, and a certificate signed by the distillery officer will be appended.

"Certified that no case which should under rule 5 have been reported to the Cantonment Magistrate occurred during the month

(excepting those mentioned in the following reports, *viz.*:—

Number of letter reporting occurrence.

Date of letter reporting occurrence)."

An abstract statement (in duplicate) will be attached in Form III A. At the foot of this statement the distillery officer will certify "compared by me with the entry in column 10 of Register I A and found to agree" and will sign the same. Copies of the statement and certificate will be retained in the distillery for record.

6. The register of passes for duty-paid spirit in Form IV will be written up at the time of preparation of the passes. Separate portions of the register will be set aside for (a) issues to Cantonment shops, (b) issues to shops in Native States, which are made on payment of a lower rate of duty.

The receipted applications for payment of duty will be filed in guard books, and will be arranged in the order in which the passes issued under their authority appear in the register.

7. On the last day of each month the entries in each part of this register will be totalled and extracts showing the totals sent on the following day to the Cantonment Magistrate accompanied by an abstract statement in duplicate in Form IV A.

(In this statement the number of gallons issued (columns 2 and 5) will be taken from the totals in register IV, the amounts of duty leviable will be calculated therefrom by applying the rates in columns 3 and 6. The totals in column 8 will be the totals of columns 4 and 7. In column 9 there will be a single figure only, which will be the total sum payable to the contractor at the rate specified in his contract on the total quantities of spirit shown in columns 2 and 5. When the statement has been prepared, the distillery officer will check it and certify as follows "the totals in columns 2 and 5 have been checked by me with the total issues shown in column 6 of register II A, the totals in columns 4 and 7 with those in columns 7—8 of register IV, and the figure in column 9 with the total in column 6 of register IV and have been found to agree." and will sign the certificate before submitting it to the Cantonment Magistrate. A copy of the statement and certificate will be kept in the distillery for record).

8. The statements received in accordance with the foregoing rules will be checked in the Cantonment Magistrate's office as follows:—

STATEMENT I A.

Column 3 with column 12 of the previous return.

Column 5 with column 7 in the same return.

Column 6 by calculation.

Column 7 with column 5 in the same return.

The entry in column 8 should be the equivalent (subject to minor differences due to evaporation and wastage while blending, which should never exceed 1 per cent.) of the entries in column 4 of register II A.

Column 10 should agree with the totals in statement III A.

Column 11—13 should be checked by calculation.

REGISTER II A.

Column 3 should agree with column 7 of the previous return.

Column 4 should be checked with column 8 of register I A.

Column 5 should be checked by calculation.

Column 6 should be checked with the totals shown in the statement IV A.

Columns 7 8 should be checked by calculation.

REGISTER III.

Columns 3, 7, 8, and 9 should be checked with one another and column 4 compared with column 6, and any delay in the arrival of spirit (or in the return of passes) and any

excess over the permissible dryage allowance should be brought to the notice of the Cantonment Magistrate.

The abstract of issues in Form III-A should be compared with the entries in register III and with column 10 of register I A.

The statement of issues in Form IV-A should be checked in the manner indicated in the distillery officer's certificate.

As soon as the foregoing check has been effected, and extract from the entries relating to it in the statement in Form IV-A will be forwarded to each State concerned, and a copy of the extract from register III relating to its warehouses will also be forwarded to each State concerned.

One copy each of the extracts from registers I-A and II-A and of statements III-A and IV-A will be forwarded by the Cantonment Magistrate to the Excise Commissioner for Central India together with a certificate to the effect that the extracts and statements have been checked in the Cantonment Magistrate's office in the manner required by rule 8. The sum due to the contractor on account of price of spirit will be paid to him, as promptly as possible, by the Cantonment Magistrate.

9. *Register VI.*—This register is intended to obviate the use of the loose scraps of paper for the record of gauges and proofs made by the distillery officer in the course of his duties. It should be carried in his pocket and not left in the office. It will facilitate the verification at any time of the quantities and strengths of spirits recorded in his various accounts. The date should be written across the page, and whenever any gauge or proof is taken the particulars relating thereto should at once be recorded. All spirits must be gauged and proved by the distillery officer personally before any entry is made in this register. Where vats have not been gauged, or where spirit is kept, under special permission, in barrels that cannot be gauged, the quantity in gallons as ascertained by measurement, should be shown in column 2 instead of the dip.

10. *Register VII.*—The entries in columns 1—3 of this register will be posted up daily from register No. IV. One or more pages will be reserved for each shop.

Separate portions of the register will be allotted to British shops and to State shops supplied from the warehouse. At the end of the entries for each group will be left a sufficient number of pages to admit of the preparation of a series of monthly abstracts showing for each month the total issues to each shop. The entries for each shop will be totalled at the end of the month and the entry in column 4 obtained by calculating the equivalent in proof gallons of the quantities shown in columns 2 and 3 of spirit of the nominal issue strengths of 25 U. P. and 60 U. P. The total for each shop will then be entered in the monthly abstract (the name of the shop instead of the date being entered in column 1). The shops will be arranged in the abstract in the same order as in the register, and the figures for each group totalled. An extract giving the total figures for each group will be sent to the Cantonment Magistrate by the 10th of the month, together with one spare copy of the portion of the extract relating to issues to each Native State served by the warehouse. One copy of the extract will be retained by the Cantonment Magistrate who will forward to the Darbar the copy of the portion relating to issues to each State. The figures given in columns 2-3 of these extracts should be checked with those given in the abstract in Form IV-A and in case of any discrepancy the figures must again be carefully examined and the discrepancy reconciled.

11. *Register VIII.*—The arrangement of shops in this register, which will be written up monthly, will be the same as in register VII, a single page being allotted to each shop, and the entries in columns 3, 7, 10 and 11 being made at the commencement of the year.

This register will be maintained for British shops only.

12. *Register IX.*—A separate page will be allotted to each receptacle presented for gauging under rule 15 of the warehouse rules, the serial number being allotted to each in the order in which it was gauged. Any transfer of ownership reported should be recorded in columns 2-3 of the register, and any change in capacity in columns 5-6. The name of the distillery and the number and capacity of the receptacle should be carved, branded or painted on it.

13. *Register X.*—The register, prescribed by rule 10 of the distillery rules, of hogsheads used for the despatch of spirit to warehouses in bond will be in Form X, a separate page being allotted to each hogshead.

14. *Register XI.*—In this register a separate page will be allotted to each of the standard measures used for gauging spirit for issue, and the results of the tests prescribed by rule 13 of the warehouse rules will be recorded in the appropriate columns.

15. *Register XII.*—Whenever an entry is made in this register, the contractor's agent will be required to sign it, in token, in the case of names entered in the register, of the fact that their names were entered at his request or with his concurrence, and, in the case of names removed from the register, of the fact that intimation of the removal has been received by him.

16. The contractor and his agent shall be permitted to have free access to Registers I, II, III and IV and shall be required to initial all entries in Registers I and II. They are at liberty to refuse to initial any entry to which they object, presenting to the officer in charge of the distillery within 24 hours a statement of their grounds for objection, which statement shall be forwarded by the officer in charge for the orders of the Cantonment Magistrate. They will not be allowed to question the accuracy of any entry that they have initialled, or in respect of which they have failed to state their grounds of objection within 24 hours. Erasures in all registers are forbidden, and the most serious notice will be taken of any transgression, however trivial, of this rule. If any corrections are necessary they must be made in red ink, and initialled and dated by the officer in charge; and the contractor or his agent must, in the case of corrections in Registers I and II, be invited by immediate written notice to inspect and initial them, which he may refuse to do subject to the same conditions under which he may refuse to initial an original entry.

17. The contractor shall maintain registers in Forms I and II, which shall be balanced and signed daily by him or by his authorized agent. The officer in charge should frequently compare this register with his own accounts, and should at once in writing draw the attention of the contractor to any discrepancies that he may discover.

18. The passes and applications for payment of duty and price of spirit prescribed by rules 11 and 17 of the warehouse rules shall be in Forms XIII and XIV.

Two separate books of passes will be set aside for issues —

- (a) to Cantonment shops,
- (b) to shops in Native States.

19. The distillery officer shall keep accounts in Forms XV—XVII of raw material, of fermentation, and of distillations.

8. Except with the special permission of the Collector the contractor will not be allowed to hold any interest in the retail vend of country spirit or any other excisable article within the area to which his contract for the supply of country spirit relates or to employ any person who has such interest.

10. Each tender must be accompanied by a deposit of Rs. 1,000 and must be enclosed in a cover superscribed with the words "Tender for the exclusive privilege of supply of country spirit in the Salsette, Bassein and Mahim Talukas of the Thana District"; this cover being enclosed in another marked "Confidential" and simply addressed to the Commissioner of Customs, Salt, Opium and Abkari. The tender must reach the Commissioner of Customs, Salt, Opium and Abkari at the Town Custom House, Bombay, before 12 o'clock noon on Monday the 16th February 1914, after which no tender will be received.

15. As soon as the agreement has been executed, the Collector will issue a license to the successful tenderer, assigning to him the exclusive privilege of supplying country spirit in the talukas of Salsette, Bassein and Mahim of the Thana District.

NOTICE.

No. 7.

(All the talukas of the Kolaba District except Karjat and Panvel.)

1. Tenders are hereby invited for the contract to supply country spirit to all the talukas of the Kolaba District except Karjat and Panvel, that is, to the talukas of Alibagh, Pen (including Nagothna Petha), Roha, Mangaon, and Mahad and to the villages in the Sudhagad Mahal of the Bhore State attached to that district for Abkari management, for a period of three years from 1st April 1915.

2. The spirit may be manufactured at any of the Central Distilleries of the Presidency Proper or at the Uran Distilleries. The contractor will manufacture the spirit from mhowra flowers, or from molasses, cane juice (shir), unrefined cane sugar (gur), or unrefined palm sugar (jagri), provided that he may not, without the written permission of the Commissioner of Customs, Salt, Opium and Abkari in any calendar month, use bases other than mhowra in a greater proportion than 50 per cent. of the whole materials used. He will be required to supply spirit at such issue strengths as may, from time to time, be prescribed by Government. The issue strengths authorized at present are as follows:—

25° U. P. and 60° U. P.

The annual consumption of country spirit in the talukas of the Kolaba District (including Sudhagad Mahal) required to be supplied under this tender for the five years ending March 1913 was as under :—

Year.	25° U. P.	60° U. P.
	Gallons.	Gallons.
1908-09	75,535	59,853
1909-10	88,194	31,988
1910-11	83,870	31,755
1911-12	87,470	21,429
1912-13	97,997	22,047

It is intended that the spirit shall be distributed from warehouses at Ambepura (Poinad), Roha and Mahad, but Government reserve to themselves the right to establish new warehouses at such other places within the contract area as they may deem suitable.

3. All spirit that is not manufactured in a patent still must be distilled twice before issue. Reduction with water to the prescribed issue strengths in the distillery or the warehouses must be made under the following conditions :—

- (1) Unless the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces is satisfied and certifies to that effect in writing that the water intended for use in reducing is obtained from a source uncontaminated and free from the likelihood of contamination, such water, prior to use, shall be raised to a temperature of not less than 212° F. and shall be kept at that temperature for at least ten minutes.
- (2) No reduction by the addition of water shall be permitted over a greater range than 85 proof degrees.

Pending completion of the warehouses to be built at Ambepura (Poinad), Roha and Mahad the spirit will be distributed from the present depôts established at Alibag, Pen, Roha and Mahad. The contractor will be required to take over at prices to be fixed by the Collector such portions of the plant at those depôts as may, in the opinion of the Commissioner, be serviceable and suitable for use in a bonded warehouse. If the contract is not renewed, the contractor shall, if so required by the Commissioner, make over the plant in the bonded warehouses on the expiration of the contract to the next contractor at a reasonable valuation to be determined by the Commissioner and the contractor shall, if not so required, have the option to be declared not later than three months before the expiration of the contract of making over the said plant on the expiration of the contract to Government at a reasonable valuation to be determined by the Commissioner after considering any representation in the matter which the contractor may desire to submit, but the contractor shall not have such option in respect of any portion of the said plant which in the opinion of the Commissioner is unsuitable or unserviceable.

4. Every licensed vendor within the area to which the contract relates will be required to obtain his supplies of country spirit from the contractor subject, however, to the proviso that an incoming vendor will purchase from the outgoing vendor at current prices (to be determined in case of dispute by the Collector) such stock of country spirit as may remain unsold at the shop on the night of the 31st March 1915 or on the expiry or cancellation of the license of the outgoing vendor.

5. The cost of the establishments maintained for Government purposes at the warehouses will be defrayed by Government. The contractor will have to pay such rent for each warehouse occupied as may be determined by the Commissioner, but Government reserve to themselves the power to raise the rent during the currency of the contract if any material additions or alterations are made in any of these buildings. The contractor will be required at his own expense to maintain the warehouse plant in good condition to the satisfaction of the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces, but he will not have to bear any charges on account of the cost of repairs to the warehouses which will be carried out by Government at their expense.

6. The rates of still-head duty now in force in the talukas of the Kolaba District (including Sudhagad Mahal) required to be supplied under this tender are Rs. 3-12-0 and Rs. 1-14-0 per gallon of 25° U. P. and 60° U. P. ; but Government reserve to themselves power to raise or revise them from time to time if they deem fit.

7. The Collector will grant such number of licenses for retail vend as he thinks necessary from time to time and will dispose of such licenses in such manner and for such periods as he may deem proper.

8. Except with the special permission of the Collector, the contractor will not be allowed to hold any interest in the retail vend of country spirit or any other exciseable article within the area to which his contract for the supply of country spirit relates or to employ any person who has such interest.

12. The decision of Government will be communicated to the tenderers concerned and the deposits of the unsuccessful tenderers will be returned to them.

14. When the full deposit of Rs. 5,000 is made, the person whose tender and final deposit have been accepted shall execute an agreement binding the same person for himself, his heirs successors and assigns to the conditions set forth in the form of supplying license which can be seen at the office of the Collector and of the Commissioner of Customs, Salt, Opium and Abkari or of the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces and if he fails or refuses to sign the agreements within a week from the date on which he is called upon to do so, the deposit already made will be forfeited and the contract will be assigned otherwise as Government may determine.

15. As soon as the agreement has been executed, the Collector will issue a license to the successful tenderer assigning to him the exclusive privilege of supplying country spirit in the Alibag, Pen, Roha, Mangaon and Mahad Talukas and the Sudhagad Mahal of the Kolaba District.

Condition XVII.—If any tenant of the house, being a military officer or a civil officer sub-lets the same without the consent of the applicant, the sub-lease shall be voidable at the option of the applicant.

Condition XVIII.—(1) If the applicant considers that any rent offered by a proposed tenant and stated in a notice in accordance with Condition XIV is insufficient, he may, within a period of fifteen days from the service of such notice, require that the matter be referred by the Commanding Officer of the Cantonment to a committee of arbitration.

(2) If the applicant does not make such a requisition within the said period, he shall be deemed to have accepted the rent so offered.

(3) After such acceptance or the decision of a committee of arbitration, the amounts of such rent shall not be called in question by either party except in the circumstances mentioned in clause (a) of Condition XXI.

Condition XIX.—(1) If the applicant fails to execute any repairs to the house which any tenant, being a military or civil officer, may consider necessary, the cantonment authority may, at the request of the tenant, and if it is satisfied that such repairs or any of them are necessary, by notice in writing, require the applicant to execute such repairs, or such of them as it may consider necessary, within a period, not less than fifteen days, to be specified in the notice.

(2) If the applicant objects to comply with any notice issued under clause (1) of this Condition, he may, within fifteen days from the service of the notice, require that the matter be referred by the Commanding Officer of the Cantonment to a committee of arbitration.

Condition XXI.—If the applicant and any tenant of the house, being a military or civil officer, disagree—

(a) as to any change in the rent of the house which is proposed in consequence of dilapidations or additions to buildings or for any other similar reason or

(b) on any matter relating to rent or repairs, other than a matter referred to in clause (a) of this Condition or in Condition XVIII, Condition XIX or Condition XX,

either the applicant or the tenant may apply to the Commanding Officer of the Cantonment to refer the matter to a committee of arbitration.

Condition XXIII.—If the applicant fails to comply with any notice issued under clause (1) of Condition XIX, and has not within fifteen days from the service of such notice, required that the matter be referred to a committee of arbitration, or,

if any committee of arbitration constituted under Chapter XX of the Secunderabad Cantonment Code, 1913, decides that repairs are necessary, and the applicant fails to execute such repairs within a period to be specified in a notice issued by the Cantonment authority in that behalf,

the tenant of the house may himself cause the repairs specified in the notice to be executed at rates not exceeding those paid in the cantonment by the Military Works Department or the Public Works Department, and may deduct the cost thereof from the rent, or otherwise recover it from the applicant.

Condition XXIV.—(1) If the applicant does not commence or complete, as required by Condition I the buildings to be erected on the land, the cantonment authority may, by notice in writing, require him to remove all or any buildings or materials which he

(2) If the applicant erects any building or makes any alteration or addition otherwise than as allowed by or under Condition II, the cantonment authority may, by notice in writing, require him to remove the building or to alter the same to its satisfaction ; and, if he fails to comply with such notice, the cantonment authority may, after giving him six hours' further notice in writing, cause such removal or alteration to be effected and recover the cost from him.

Condition XXV.—(1) So long as the applicant, his heirs, administrators, representatives or assigns, shall observe the conditions hereinbefore specified and on his or their part to be observed, he or they may, subject to Condition XXVII, hold the land for ever without interruption by the Secretary of State, his successors and assigns.

(2) If the applicant, his heirs, executors, administrators, representatives or assigns, shall in the event of the said buildings being destroyed or injured by earthquake, fire, cyclone or other act of God, fail to commence rebuilding the same as provided in Condition III hereof within six months of such destruction or injury and to reinstate the same fit for use as provided in the said Condition III hereof, and within such period as therein provided, or shall break any of the remaining conditions hereinbefore specified, other than Condition I or Condition II, and on his or their part to be observed, the Resident at Hyderabad may, after giving one month's notice in writing, cancel the grant or any portion thereof, and, may, on such cancellation, declare all or any part of the right and interest of the applicant, his heirs, executors, administrators, representatives or assigns, in the buildings erected on the land to be forfeited.

Condition XXVI.—The applicant, his heirs, executors, administrators, representatives and assigns, shall not be entitled to compensation for any loss incurred by reason of anything done in pursuance of Condition XXIV or Condition XXV, clause (2).

Condition XXVII.—The Resident at Hyderabad may cancel the grant or any portion thereof at any time after giving one month's notice in writing, and on payment of compensation for such buildings or portion thereof as shall have been erected under proper authority. If there shall be any dispute as to the amount of such compensation, the same shall be referred to a committee of arbitration, which shall be constituted as provided in Chapter XX of the Secunderabad Cantonment Code, 1913, and the applicant, his heirs, executors, administrators, representatives and assigns, shall be bound by the decision of the committee of arbitration.

The 29th November 1913.

No. 10054-87.—In exercise of the powers conferred by section 7 of the Indian Telegraph Act, 1885 (XIII of 1885), and in supersession of the Notification No. 7571-163 dated the 8th October 1909, as subsequently amended, the Governor General in Council is pleased to issue the following revised rules and orders governing the exchange by radio-telegraph of public correspondence between stations on the coast of India and ships at sea.

Duration of Service.

1. The service at coast stations in India will be according to the hours notified for such stations in the *India Telegraph Guide*. Those coast stations at which the service is of limited duration must not close before they have transmitted all their radio-telegrams to such ships as are within their range of transmission and have received from these ships all the radio-telegrams of which notice has been given. This applies also when ships notify their presence before work has actually ceased.

Form and Acceptance of Telegrams.

2. The form and acceptance of telegrams will be in accordance with the rules for Foreign telegrams as given in the rules published in Notification No. 6975-137, dated the 16th of September 1909 (reproduced as Section III of the *Indian Telegraph Guide*).

Special rules for Radio-telegrams to ships

3. The sender is in every case responsible for the sufficiency and accuracy of the address of his radio-telegram.

The address of radio-telegrams intended for ships should be drawn up as follows :—

- (1) Name or description of addressee, with supplementary particulars if necessary.
- (2) Name of the ship as in the first column of the Official List of Wireless Telegraph Stations; and, if intended to be transmitted through a coast station.
- (3) Name of the coast station as it appears in the Official List of Wireless Telegraph Stations.

If desired, the name of the ship may, at the risk of the sender, be replaced by the particulars of its voyage.

In the case of radio-telegrams accepted on board ship for places on land, it is the duty of the operator to see that the office of destination is written as shown in the first column of the International List of Telegraph Offices.

The name and permanent address of the sender should be written on the form for purposes of record.

Preamble.

4. The preamble of every radio-telegram should begin with the word "Radio".
5. On transmitting a radio-telegram from a ship over the ordinary telegraph system the coast station inserts for office of origin the name of the ship of origin as it appears in the Official List, and also, when the case arises, the name of the last ship which acted as intermediary, should any retransmission have occurred, and the name of the coast station. The code time (*i. e.*, the time of receipt of the radio-telegram at the coast station), should also be inserted, and this, together with the service instructions, the date and time of handing in, and the number of words signalled by the ship should be transmitted.

Charge for Radio-telegram.

6. The charge for a radio-telegram must in every case be prepaid by the sender. For a radio-telegram exchanged between a ship and a telegraph office on land the charge comprises:—

- (a) the ship-station charge;
- (b) the coast-station charge;
- (c) the charge for ordinary telegraph transmission;
- (d) the special charges, if any;
- (e) the charge for re-transmission, if any, one ship-station charge for each retransmitting ship.

In the case of a radio-telegram exchanged between two ships the charge consists of:—

(i) via coast-stations.

- (a) the ship-station charge of the ship of origin;
- (b) one coast-station charge for each coast-station;
- (c) the ship-station charge for the ship of destination;
- (d) the charge for ordinary telegraph transmission, if any;
- (e) the special charges, if any;
- (f) charge for retransmission, if any, one ship-station charge for each retransmitting ship.

NOTE.—In cases where one coast-station only is employed in the transmission and the rates applicable to communications exchanged with the ships concerned are different, the higher coast-station charge must be applied.

(ii) Not via coast-stations.

The same charges as above will apply except (b) and (d).

The coast-station charge and the ship-station charge can be ascertained from the Official List of Stations published by the International Bureau at Berne. The Indian coast-station charge is 3½ annas a word.

Radio-telegrams for Delivery by Post from a Port of call of the ship to which they are transmitted.

7. Radio-telegrams may be accepted for a ship with the object of being forwarded by post from a port of call. Re-transmission by radio-telegraphy is not permitted in such cases.

The address must be drawn up as follows:—

- (a) The paid instruction "Poste," followed by the name of the port where the radio-telegram is to be posted.
- (b) Name and address of the addressee.
- (c) Name of the ship-station which is to carry out the posting.
- (d) Name of the coast-station in communication with the ship, unless the message is exchanged directly between two ships.

Example:—

"=Poste Buenosaires=Smith 14 Calle Prat Valparaiso Avon Lizard."

A charge of 2½/ for postage should be collected in addition to the radio-telegraph charges.

A radio-telegram of this nature received on board a ship must be posted as a paid letter at the port indicated, and particulars of posting noted on the duplicate form, which must be prepared and disposed of in the same way as those relating to radio-telegrams delivered on a ship.

Classes of telegrams not admitted in the Radio-telegraphic Service.

8. Certain special classes of telegrams, which are admitted in the international telegraph service, cannot be accepted in the radio-telegraphic service. They are as follows:—

- (a) Telegraphic money orders.

- (b) Telegrams "to follow the addressee."
- (c) Paid service telegrams asking for repetition or information, except as regards transmission over the ordinary telegraph system.
- (d) Urgent telegrams, except as regards transmission over the telegraph system of Administrations which accept such telegrams.
- (e) Telegrams at deferred rates.

Priority of Messages.

9. In the transmission of radio-telegrams priority must be assigned first of all to messages of distress and then according to the order given in Rule 158 of the rules published in Notification No. 6975-137, dated the 16th of September 1909. (Reproduced as Section III of the *Indian Telegraph Guide*), viz.:

- (a) State (or Government) telegrams.
- (b) Service telegrams.
- (c) Private telegrams.

Undelivered Radio-telegrams from ships.

10. When a radio-telegram from a ship at sea cannot be delivered to the addressee on land, the coast-station should be informed by the office of destination. The operator must then compare the address on the original form with that given in the advice of non-delivery and send a correcting service message if any discrepancy appears. In the absence of any discrepancy, the information must be transmitted, if possible, to the ship of origin, if necessary, by way of another coast-station of the same country or of a neighbouring country, or another ship-station. The ship-station operator must, in his turn, compare the address on the notice with that on the form handed in by the sender, and, if possible, correct any error by means of a service advice, transmitted by way of the original coast-station, another coast-station of the same or a neighbouring country, or another ship-station. Should no error be disclosed, the sender should be informed of the non-delivery of his message and the reason assigned for it. A sender desiring to alter or add to an address can only do so by means of a paid service advice.

Undelivered Radio-telegrams addressed to ships.

11. When a radio-telegram reaching a ship at sea cannot be delivered, the office or ship-station of origin must be informed by service advice. In the case of radio-telegrams received through coast-stations this information should be sent, if possible, through the coast-station concerned; but, if circumstances require, it may be sent through another coast-station of the same country, or of a neighbouring country, or through another ship-station.

The sender of a radio-telegram to a ship may indicate the maximum period for which he desires the message to be kept at the coast-station. If the ship does not communicate with the coast-station within that period it will be the duty of the operator at that station to send a service advice to the office of origin accordingly.

If the sender does not specify any period, the office of origin should be informed by service advice on the morning of the 5th day after the despatch of the radio-telegram that it has not been possible to deliver the message to the ship of destination. The sender, who will be informed by the office of origin, may then, if he chooses, request, by means of a paid service advice to the coast-station (the prepayment being at the rate for a message to the coast-station, without payment of the wireless rate either for the coast-station or for the ship) that the radio-telegram may be retained for a further period of 9 days, and so on. If no such request is received, the radio-telegram should be treated as undeliverable at the end of the 9th day, not including the day of handing in.

However, if the coast-station knows that the ship has passed beyond its range of transmission before the radio-telegram could be transmitted to it, the office of origin should be informed accordingly by service advice without delay. The sender may, by paid service advice, request the coast-station to transmit the radio-telegram when the ship next passes.

Distress Signal.

12. As soon as a station perceives the distress signal, it must suspend all correspondence and must not resume work until it has made sure that the communication consequent on the call for assistance has been completed.

Procedure when signals become doubtful.

13. When signals become doubtful, it is important that recourse should be had to all possible means for effecting transmission. For this purpose, the radio-telegram is repeated, at the request of the receiving station, but not more than three times. If in spite of this triple transmission, the signals are still unreadable the radio-telegram is cancelled. If an acknowledgment of receipt is not received, the transmitting station again calls the receiving station.

If no reply is made after three calls, transmission is not continued. In such case, the sending station shall have the right to obtain the acknowledgment of receipt through the medium of another radio-telegraph station, using, when necessary, the lines of the telegraph system. If the receiving station, in spite of defective reception, thinks that the radio-telegram may be delivered, it inserts the Service Instruction "Reception doubtful" at the end of the preamble and sends on the radio-telegram. If the ship-station later on transmits the radio-telegram to another coast station of the same administration, the charges for a single transmission only can be claimed.

Message forms to be preserved.

14. The originals of radio-telegrams and the documents relating to them are kept for seven days only in Government telegraph offices, after which they are sent to the Assistant Accountant-General, Telegraph Check Office, Calcutta, where they are preserved for at least fifteen months, reckoned from the month following that of handing in.

Refunds.

15. Refunds will be governed by Rules 348 to 358 of the rules published in Notification No. 6975-137, dated the 16th September 1909, subject to the reservations given in Rule 6 of these rules.

Terms on which the Government of India are prepared to consider offers for the construction by the Agency of private companies of branch lines forming feeders either to State lines worked by the State or to railways worked by companies.

RESOLUTION.—In supersession of all previous orders on the subject, the following information is published detailing the conditions on which the Government of India will be prepared to receive applications for the grant of financial assistance to companies formed to provide capital for the construction of such branch railways as Government may be prepared to entrust to companies. The terms offered have been made considerably more liberal in several respects.

2. No concession can be granted for the construction of a branch line until the line has been surveyed and detailed estimates of its cost and an adequate report on its traffic prospects have been prepared by an agency approved by the Government of India. When promoters are desirous that such a survey should be made an application should be submitted to the Railway Board in the form prescribed in memorandum B, attached.

3. The conditions on which concessions for the construction of branch lines will be granted are as follows :—

- (i) The prospectus of the company to be formed for the purpose of providing capital for the line must be submitted to, and approved by, the Government of India before issue. The capital of the company must be expressed in rupees, and subscription must be invited only in India. The amount of capital to be raised will be subject to the approval of the Government of India and the construction of the line will not be begun until the Government of India are satisfied that capital sufficient to meet the estimated expenditure has been subscribed.
- (ii) The railway shall be built according to plans and estimates approved by the Government of India, and must conform to the fixed and moving dimensions for the time being prescribed. The gauge of the line, the route followed, the situation of stations, and details of a similar character shall be subject to the approval of the Government.
- (iii) All land in British Territory which is, in the opinion of the Government of India required for the construction of the line, will be provided free of charge, including land permanently or temporarily required for quarrying ballast, for brickfields, and similar purposes.
- (iv) The results of existing surveys will be made available to persons applying for concessions under these rules. In cases where this is considered advisable by the Railway Board, fresh surveys will be made at the request of promoters inquiring into the probable prospects of any projected line on the understanding that no preferential claim to a concession for the construction of the line is thereby established. If permission be eventually given for the construction of

any line, the cost of all surveys, whether special surveys or surveys previously made at the cost of or with the approval of Government, shall be included in the capital cost of the railway. The Government of India expressly disclaim all responsibility for the accuracy of any survey, plan, estimate, or other information supplied by them.

- (v) Electric telegraphs and telegraphic appliances will be supplied and maintained by the Government of India at the charges and on the conditions in force for the time being for similar services on State railways.
- (vi) Railway materials for the construction of the branch line will be carried over railways owned and worked by the State at the special rates charged for similar materials belonging to State railways.
- (vii) The Government of India will grant financial assistance to approved companies either in the shape of a guarantee of interest, or of a rebate to the branch line company from the net earnings of the main line from traffic interchanged with the branch. Assistance in the latter form can only be promised where the main line is worked by the State: but the Government of India will, in other cases, endeavour to arrange on behalf of the branch line company a similar agreement with the company working the parent line. A rebate and a guarantee of interest cannot be granted simultaneously in respect of the same branch line. In cases where the entire capital is raised by the issue of shares the following terms will apply:—

(a) *Guarantee of interest.*—The Government of India will be prepared to guarantee from the close of the period during which interest is payable out of capital interest at the rate of $3\frac{1}{2}$ per cent. per annum on the approved paid-up share capital of the company to the end of the financial year in respect of which the dividend is declared, subject to the condition that all surplus profits which may be earned by the company after paying interest on the paid-up share capital at the rate of 5 per cent. shall be equally divided between the Government and the company. This guarantee, where given, will remain in force until the line is purchased by the Government. Any sums payable by the Government under the guarantee shall be payable in rupees.

(b) *Rebate.*—When the branch line connects with a railway owned and worked by the State, the Government of India will be prepared to allow the company in respect of and at the end of each financial year by way of rebate, such a sum, not exceeding in any year the net earnings (exclusive of earnings derived from the carriage of revenue stores) from traffic interchanged between such State railway and the branch line as shall, together with the net earnings of the branch line, make up an amount equal to interest at the rate of 5 per cent. per annum on the approved paid-up share capital of the company. This undertaking will be subject to the proviso that, when the net earnings of the Company, without the assistance of a rebate, suffice to pay interest at a rate exceeding 5 per cent. on the paid-up share capital, the surplus shall be divided equally between the Government and the company. The payment of rebate shall commence at the close of the period during which interest is payable from capital. Payments on account will, subject to subsequent adjustment, be permissible at the end of each half-year. For the purpose of calculating the rebate, the net earnings of the main line from traffic interchanged with the branch will be assumed to bear the same proportion to the gross earnings of the main line from such traffic as the net earning of the whole main line system, including the branch, bear to the gross earnings of the whole system.

- (viii) (a) If, in the case of a concession granted under either of the conditions of the foregoing paragraph, it be intended by the branch line company to construct and work the branch line itself, the amount to be spent each year on working expenses will be subject to the approval and sanction of the Government of India.
- (b) In such cases the Government of India may from time to time appoint any one person to be a Director of the branch line company who shall be *ex-officio* a member of all committees appointed by the Board of Directors of the company or by the company in relation to the undertaking or any other matter connected therewith, and shall have power to exercise at his discretion an absolute veto in all proceedings of the Board of Directors and shall not be removable except by the Government of India and may act by a Deputy appointed by the Government of India.
- (c) If a branch line company, which has been granted financial assistance under clause vii (a) above and permitted to work the railway by its own agency, be guilty of any breach of contract or of gross mismanagement, or if the working expenses of the railway exceed the gross earnings for six consecutive half-years, the Government of India may at any time, after giving six months' notice assume the working of the railway by State or any other agency. If the

working of the line is so assumed, the terms of working will be fixed by Government.

- (ix) Where the main line is a railway owned and worked by the State, the main line administration will, if it is so desired, work the branch line for a percentage of the gross earnings of the branch. When the branch and main line are of the same gauge this percentage will usually be that obtaining on the whole system, including the branch, from time to time, but will not in any case exceed 50 per cent. of the gross earnings of the branch from all sources, and will include all charges on account of the use of the main line rolling stock subject to the condition that the company shall, if and when required to do so during the continuance of the working contract, bear the capital portion of the cost as stated by Government of strengthening the permanent-way and bridges of the branch line to enable the rolling stock for the time being of the working railway to be used on it without restriction. Where the gauges are not the same, special working terms will be fixed in each case. When the main line is not worked by State agency, the Government of India, if desired to do so by the branch line company, will endeavour to negotiate similar terms for working with the main line administration.
- (x) No capital expenditure by the branch line company shall be recognised, as between the Government of India and the company, unless the prior sanction of the Government of India to that expenditure has been obtained. The company shall have no power to increase its share or stock capital without the sanction of the Government of India or the Secretary of State, or to borrow money, otherwise than for purely temporary purposes, except on conditions to be specified by these authorities.
- (xi) Any unexpended capital which the company may have shall be invested or deposited at interest in a manner to be approved by the Government of India and in the name of the company, not in that of the Managing Agents, and the return therefrom shall be treated as net earnings of the railway.
- (xii) The branch line company, if so required, shall keep accounts in forms approved by the Government of India, and they shall supply, free of charge, all accounts required by the Government. The accounts will be subject to audit by officers appointed by the Government.
- (xiii) Funds for the execution of new works chargeable to capital, which may be found to be necessary for the safety, economy, or efficiency of working after the branch railway has been open to public traffic, shall be provided by the branch line company. Such works, and their cost shall, when the branch railway is worked by the main line administration, be agreed upon between the branch line company and the main line administration before they are undertaken; in the event of any difference of opinion as to the necessity for, or the cost of, any such work, the matter shall be referred to the Railway Board, whose decision shall be final.
- In the event of the branch line company failing to provide, after six months' notice, any additional capital for work required under this condition or conditions (ii) and (ix) above, the Government of India shall be at liberty to supply the necessary funds, and to carry out the work, and shall be entitled to receive from the sums payable to the branch line company, by way of net earnings or rebate, interest at 5 per cent. (or any lower rate that it may, in special cases agree to accept) on funds so applied.
- (xiv) Subject to the law for the time being in force, payment out of capital will be sanctioned, during a period which may extend to the close of the half-year in which the railway shall have been opened throughout for public traffic, of such sums as, with the interim net earnings, shall be required to pay interest at a rate to be agreed upon on the paid-up capital of the company.
- (xv) Such expenses on account of administration of the branch line company as the Government of India may sanction may be charged during construction to the capital account of the company, and with effect from the date on which the line is opened for traffic throughout will be charged as follows:—
- (a) if the branch line company works its own line, as part of the working expenses of the line;
 - (b) if the company's line is worked by the main line administration,
 - (1) when the net earnings do not suffice to pay interest at 5 per cent. (or suffice to pay only 5 per cent.) on the paid-up share capital of the company, as part of the working expenses to be met out of the stipulated percentage of the earnings of the branch taken by the working agency;
 - (2) when the net earnings exceed 5 per cent. on the paid-up share capital of the company, as a first charge on surplus profits before division; provided that, if the surplus profits are insufficient to meet the administration

charges, the balance will be paid by the working agency out of the stipulated percentage of the earnings of the branch taken by it.

- (xvi) The rates and arrangements in force on State railways as regards services rendered to other departments of State shall apply to the branch line. The branch line company shall also be liable when called on to provide, at such stations as may be ordered by Government, buildings for post office and quarters for post office staff at a charge not exceeding $7\frac{1}{2}$ per cent. per annum on the capital cost of the said buildings and quarters.
- (xvii) The Government of India reserve the right to fix and vary from time to time the classification of goods for tariff purposes, and the maximum and minimum rates for each class of goods and for passengers. They also reserve a general right of control in respect of the number and timing of trains.
- (xviii) During the first year after opening of the branch line, or part thereof, the expenditure incurred on the maintenance of the line may be charged to capital.
- (xix) Notwithstanding anything in the preceding clauses, expenditure due to extraordinary accidents and casualties, or to defects and their consequence in the construction of the line or in any part thereof, shall be met by the branch line company, in addition to the percentage of earnings payable to the main line as working expenses, and shall be charged against the branch line net earnings, or against capital, according to circumstances, in accordance with the general usage on Indian railways.
- (xx) All agreements for lines constructed under these terms shall include a special purchase clause permitting the Government of India to purchase the lines at any time, after giving one year's notice, in the following cases :
 - (1) When the Government of India consider it desirable that the gauge of the branch line should be altered.
 - (2) When it is desired to convert the branch line into a line of through communication.
 - (3) When the Government of India desire to extend the branch line (without altering the gauge or making the line part of a through route), and the branch line company is unable or unwilling to supply the necessary capital for such extension.

In the event of a line being purchased under this clause, the price payable shall be 25 times the average net earnings (excluding payments on account of guarantee or rebate) during the three years preceding the purchase, or 115 per cent. of the capital expenditure on the line, whichever may be the greater. All payments shall be made on a rupee basis.

- (xxi) The agreements shall also include an ordinary purchase clause permitting the Government of India to purchase the lines at the expiry of 30 years from the date on which the railway was declared open for traffic or at subsequent intervals of 10 years, subject to the condition that at least one year's previous notice of the intention to purchase has been given. The price payable on purchase under this clause shall be 25 times the average net annual earnings (excluding payments on account of guarantee or rebate) during the three years preceding the purchase, subject to a maximum of 120 per cent. and a minimum of 100 per cent. of the capital expenditure on the line at the time of purchase. All payments shall be made on a rupee basis.

4. Applications for concessions under these orders should be submitted in the forms prescribed by Memorandum A attached to this Resolution. Copies of the forms may be obtained on application to the Secretary to the Railway Board. Requests from promoters for information as regards existing surveys, or for new surveys—*vide* paragraph 3 (iv)—should be addressed to the Secretary to the Railway Board. Season and Crop Prospects for the week ending Saturday,
22nd November 1913.

Burma.—During the week the rainfall was normal in Lower and Upper Burma but was somewhat irregularly distributed. Agricultural operations are progressing normally. Standing crops are generally in good condition. Pasturage is sufficient and cattle are healthy but sporadic cases of rinderpest and foot and mouth disease have been reported from a few districts. The price of unhusked rice is slightly above normal.

Assam.—During the week light showers fell in most districts which have proved beneficial to the winter crops. Ploughing for and the sowing of mustard, harvesting of winter rice, pressing sugarcane and the manufacture of tea are in progress. In Sylhet the sowing of spring rice continues. The prospects of tea are good and those of transplanted winter rice fair. The average price of common rice has fallen slightly. Cattle disease is reported from four districts. Fodder is insufficient in Sylhet and Kamrup.

Bengal.—During the week light to moderate rain fell throughout the Province facilitating the ploughing of the land for and the sowing of spring crops. Prospects so far are good. Harvesting of winter rice is proceeding and the outturn is reported to be good. Slight damage has been done by rain to ripe paddy in some places. Cattle disease is reported from six districts. The average price of rice has fallen slightly as compared with that of the previous week. Agricultural loans were issued in Midnapore, Hooghly and Howrah.

Bihar and Orissa.—During the week moderate rain fell in Orissa and Chota Nagpur. There was practically no rain in Bihar except in the Sonthal Perganas. The sowings of spring crops are nearing completion. Harvesting of winter paddy continues in Orissa and Chota Nagpur and has commenced in Bihar. Standing crops are doing well. The recent rainfall has been beneficial to the standing paddy and oil seed crops in Orissa. The price of common rice has fallen as compared with that of the previous week. The supply of fodder is sufficient except in parts of Patna. The condition of cattle is on the whole good. The prospects of standing crops in the Feudatory States of Orissa are good.

United Provinces.—The week was rainless. More rain is urgently needed in all but the south-eastern districts. Standing crops are suffering from drought except in the South-East. White ants and locusts have damaged crops in a few districts. *Kacheha* wells are being sunk with the aid of *takavi* advances. Irrigation and preparation of land for spring crops, for sugarcane and for poppy continue. Sowing of poppy is in progress and that of spring crops is nearing completion. Cattle disease is still reported from some districts of the Provinces. Scarcity of fodder is increasing and water has run short in the Bundelkhand and Fatehpur districts. Prices are high.

Punjab.—During the week the weather was dry except in the west and north-west. Rain is required for unirrigated sowings of spring crops which are generally restricted. Germination is on the whole satisfactory. Picking of cotton and pressing of sugarcane continue throughout the Province and harvesting of other autumn crops has been completed except in the districts north of the Beas. Outturns are generally average to good except in the unirrigated tracts of the south-east where they are below average. The condition of the standing sugarcane and cotton crops is average to good except in some of the south-eastern districts where sugarcane on unirrigated lands is in poor condition. Cattle are generally healthy but fodder is getting scarce in the south-east. Prices of wheat are generally close to normal and of other grains a little above normal.

North-West Frontier Province.—The week was rainless and the weather cold. The condition of standing crops is average. Harvesting of autumn crops is in progress and the outturn is expected to be normal. Pressing of sugarcane has commenced in Peshawar and sowing of spring crops is proceeding. The condition of cattle is good and the fodder and water-supply are generally sufficient. Prices of food grains are high and tending to rise in some cases.

Jammu.—No rain fell during the week. Prices are fluctuating. Wheat sells from 10 to 15 and maize from 12 to 22 seers per rupee. The condition of standing crops is fair. Cattle disease of a mild type prevails in the Jammu tahsil. Fodder is sufficient.

Kashmir.—No rain fell during the week. Cattle disease is reported in some villages of the Anantnag and Baramula districts. Sowing of spring crops is in progress. The harvesting of autumn crops is finished. Prices are normal. Water and fodder are sufficient.

Rajputana.—No rain fell during the week. The weather was clear and cool. Harvesting of autumn crops has been completed in most places. The estimated outturn is unfavourable in the eastern States of Central Rajputana including Ajmer-Merwara, where sowings of spring crops are also generally restricted and fodder is insufficient. Cattle are generally doing well. The supply of water is generally sufficient. Prices are generally high and rising. Cattle emigration continues in Ajmer-Merwara and Marwar, Jaipur, Kishengarh, Bharatpur and Karauli.

Central India.—No rain fell during the week and the weather was occasionally cloudy and cool. More rain is wanted in parts of Gwalior, Baghelkhand, Bundelkhand and in the Rampura Bhanpura and Alampur pergunas of Indore. Harvesting of autumn crops and sowings of spring crops are in progress except in parts of Gwalior, Baghelkhand and Bundelkhand and the Alampur pergunas of Indore where operations have been stopped for want of rain. The contractor will have to pay such rent for each warehouse occupied as may be determined by the Commissioner, but Government reserve to themselves the power to raise the rent during the currency of the contract if any material additions or alterations are made in any of these buildings. The contractor will be required at his own expense to maintain the warehouse plant in good condition to the satisfaction of the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces, but he will not have to bear any charges on account of the cost of repairs to the warehouses which will be carried out by Government at their expense.

6. P. and 60° U. P. ; but Government reserve to themselves power to raise or revise them from time to time if they deem fit.

7. The Collector will grant such number of licenses for retail vend as he thinks necessary from time to time and will dispose of such licenses in such manner and for such periods as he may deem proper.

8. Except with the special permission of the Collector, the contractor will not be allowed to hold any interest in the retail vend of country spirit or any other exciseable article within the area to which his contract for the supply of country spirit relates or to employ any person who has such interest.

9. Tenderers should state the lowest rate per proof gallon of spirit at which they will be prepared to supply vendors at the warehouses established by Government. One rate should be quoted for the whole of the contract area.

10. Each tender must be accompanied by a deposit of Rs. 1,000 and must be enclosed in a cover superscribed with the words "Tender for the exclusive privilege of supply of country spirit in the talukas of Alibag, Pen, Roha, Mangaon and Mahad and the Sudhagad Mahal of the Kolaba District," this cover being enclosed in another marked "Confidential" and simply addressed to the Commissioner of Customs, Salt, Opium and Abkari. The tender must reach the Commissioner of Customs, Salt, Opium and Abkari at the Town Custom House, Bombay, before 12 o'clock noon on Monday the 16th February 1914 after which no tender will be received.

11. Government reserve power to accept such tenders as they may deem best in the public interest and to reject all or any of those received without assigning any reasons.

12. The decision of Government will be communicated to the tenderers concerned and the deposits of the unsuccessful tenderers will be returned to them.

13. The successful tenderer shall within one week after the decision of Government has been communicated to him, deposit as security with the Collector of Kolaba a sum of Rs. 4,000 in cash or Government Promissory Notes endorsed to the Collector in addition to the deposit of Rs. 1,000 required under clause 10 *ante*; and if he fails to do so, the decision of Government accepting the tender will be cancelled, the deposit already made will be forfeited, and Government will otherwise dispose of the contract.

14. When the full deposit of Rs. 5,000 is made, the person whose tender and final deposit have been accepted shall execute an agreement binding the same person for himself, his heirs, successors and assigns to the conditions set forth in the form of supplying license which can be seen at the office of the Collector and of the Commissioner of Customs, Salt, Opium and Abkari or of the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces and if he fails or refuses to sign the agreements within a week from the date on which he is called upon to do so, the deposit already made will be forfeited and the contract will be assigned otherwise as Government may determine.

15. As soon as the agreement has been executed, the Collector will issue a license to the successful tenderer assigning to him the exclusive privilege of supplying country spirit in the Alibag, Pen, Roha, Mangaon and Mahad Talukas and the Sudhagad Mahal of the Kolaba District.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 4th December 1913, based on the Indian Daily Weather Reports of the period.

1. Weather was feebly unsettled in north-west India owing to the advance into that area from Persia of two disturbances of the cold weather type; and light to moderate precipitation occurred in Baluchistan, Sind and the western half of Rajputana while there were a few light falls in Kashmir, the Punjab, and the hill districts of the United Provinces.

A stationary depression lay over Ceylon during the week and was the cause of moderate to heavy rain in the south of the Peninsula.

Several depressions of extra-Indian origin have been recorded in the north during the past month, and it appears that winter conditions are setting in earlier than usual in northern India.

2. *Burma*.—Except for a light fall of rain at Victoria Point on the 27th dry weather prevailed throughout the week.

North-east India, including Orissa.—The only rainfall in the division consisted of two light falls at Cox's Bazar in the latter part of the week.

The United Provinces, Central India and the Central Provinces.—No rain fell beyond light showers at Chakrata and Mussooree on the 30th.

North-west India.—Local precipitation was recorded in Baluchistan on the first three days of the week and nearly general precipitation on the 2nd. In Sind there was local rain on the 2nd and nearly general rain on the 3rd. Several showers occurred in Rajputana but over the remainder of the division only scattered falls were reported.

The Peninsula.—Rainfall occurred each day in the south-east of the division and on the 3rd extended into Malabar. There were local falls in the Madras Deccan towards the end of the week.

3. The chief daily amounts were as follows:—

November 27th.	Negapatam 3·20" and Pamban 3·82".
„ 28th.	Pamban 3·10" and Negapatam 5·15".
„ 29th.	Quetta 0·37", Montgomery 0·23", Cuddalore 2·75", Madras 2·51" and Negapatam 2·36".
„ 30th.	Sonamarg 0·75", Kotah 0·38", Madras 2·58" and Negapatam 2·00".
December 1st.	Trivandrum 3·52" and Tinnevely 2·90".
„ 2nd.	Quetta 0·32", Chaman 0·45", Kalat 0·62", Robat 0·60", Jacobabad 0·75", Coimbatore 2·36", Madras 1·64", Cuddapah 0·96" and Nellore 3·17".
„ 3rd.	Jacobabad 0·55", Bikaner 0·53", Udaipur 0·33", Calicut 1·06", Negapatam 6·05", Cuddalore 4·69" and Madras 3·71".

4. The week's rainfall was more than 20 per cent. in excess in the Punjab Southwest, Kashmir, Baluchistan, Sind, Rajputana and the whole of Madras: it was 20 per cent. or more in defect in the Bay Islands, Burma, Assam, Orissa, the North-West Frontier Province, Central India West and Mysore, but in all these areas with the exception of the Bay Islands little or no rain is received even under normal conditions.

As a new rainfall period begins with this week, the departures from normal of the seasonal rainfall are the same as those of the week.

Season and Crop Prospects for the week ending Saturday, 29th November 1913.

Burma.—During the week there was practically no rain in Lower Burma. In Upper Burma the rainfall was slight and irregularly distributed. Agricultural operations are progressing normally. Standing crops are generally in good condition. Pasturage is sufficient and cattle are healthy but slight outbreaks of disease are reported from a few districts. Price of unhusked rice is slightly above normal.

Assam.—During the week light showers fell in some parts of the province. The sowing of mustard is nearly finished. Harvesting of winter rice and pressing of sugarcane are in progress. The sowing of spring rice continues in Sylhet. The tea season has practically closed in Cachar and Nowgong. The outturn is on the whole good. Prospects of transplanted winter rice are fair. Some damage to crops by hail storms is reported from the western parts of the Brahmaputra Valley and Manipur. The average price of common rice is nearly the same as it was last week. Cattle disease is reported from five districts. Fodder is insufficient in parts of Sylhet, Kamrup and Darrang.

Bengal.—During the week no rain fell throughout the Province except some slight showers in parts of Dinajpur, Darjeeling and Chittagong. The sowing of spring crops continues. Prospects so far are good. Harvesting of winter rice is in rapid progress and the outturn is reported to be good. The condition of the sugarcane crop is fairly good. Cattle disease is reported from eight districts. The average price of common rice has fallen by about 1·3 per cent. as compared with that of the previous week. Agricultural loans were issued in Bankura, Midnapore and Howrah and gratuitous relief was given in Midnapore.

Bihar and Orissa.—There was no rain during the week and the weather was seasonable. Harvesting of winter rice is going on and pressing of sugarcane has commenced. Sowing of spring crops still continues in Bihar. The standing crops are doing well. The average price of common rice has remained almost stationary as compared with that of the preceding week. The supply of fodder is insufficient in the flood affected areas of Patna. Cattle disease is reported from ten districts. Prospects of standing crops in the Feudatory States of Orissa are good.

United Provinces.—The week was rainless. More rain is urgently needed in all but the south eastern districts. Standing crops are suffering from drought except in the east of the Provinces, while locusts and white ants have damaged the crops in the Bijnor, Budaun, Hardoi and Fatehpur districts. *Takari* advances are being given for *Kachcha* wells, ropes, bullocks and seed. Irrigation and preparation of land for sugarcane and for poppy continue. Sowing of poppy is in progress while that of spring crops is almost complete. Cattle disease is still reported from some districts of the Provinces. Scarcity of fodder is increasing but Government hay is being distributed freely for agricultural stock which is in fairly good condition. Water is running short in the Bundelkhand and Unao districts. Prices are fluctuating with an upward tendency.

Punjab.—The slight rain which fell in parts of the Western and Central Punjab was insufficient. More is generally wanted for unirrigated sowings of spring crops which are restricted except in the west and north-west. Germination is generally satisfactory but unirrigated spring crops are in places suffering from drought. Picking of cotton and pressing of sugarcane continue. Harvesting of other autumn crops has been completed except in the west and north-west. Outturns are generally average to good except in the south-east where they are below average in unirrigated lands. Standing sugarcane and cotton crops are average to good except in the south-east where sugarcane on unirrigated land is in poor condition. Cattle are generally healthy but fodder is getting scarce in the south-east. The price of wheat is generally close to normal and that of other grains a little above normal.

North-West Frontier Province.—During the week slight showers fell in Hazara, Peshawar, Kohat and Bannu. The weather was cold and at times cloudy. The condition of standing crops is average. Pressing of sugarcane and harvesting of autumn crops are in progress and the outturn is expected to be normal. The sowings of spring crops are proceeding. Cattle are in good condition. The supply of fodder and water is generally sufficient. Prices of food grains are high and tending to rise in Bannu. Prices of wheat are also rising in Peshawar.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 10 to 15 and maize from 12 to 21 seers per rupee. The condition of standing crops is fair. Fodder is sufficient.

Kashmir.—There was slight rain during the week. The sowings of spring crops are in progress. Cattle disease is reported in some villages of the Anantnag and Baramulla districts. Prices are normal. Fodder and water are sufficient.

Rajputana.—During the week slight showers of rain fell in Jaisalmer. The weather was generally clear and cool. Harvesting of autumn crops is nearly completed. The estimated outturn is unfavourable in the Eastern States of Central Rajputana including Ajmer-Merwara where sowings of spring crops are also restricted and fodder is insufficient. Cattle are doing well. The supply of water is generally sufficient. Prices are high in most places and stationary. Cattle emigration continues in Ajmer-Merwara and Marwar, Jaipur, Kishengarh, Bharatpur and Karauli. Prospects are causing anxiety in Ajmer-Merwara. Test works have been started in Merwara and forty-six persons are employed on them.

Central India.—During the week the rainfall was 14 cents in Barwani. Elsewhere no rain fell. The weather was clear and cool. More rain is badly wanted in parts of Gwalior, Bhopal, Baghelkhand, Bundelkhand and in Mehidpur, the Rampura Bhanpura and the Alampur pergana of Indore. Harvesting of autumn crops is completed in Gwalior and is in progress elsewhere. The sowing of spring crops is completed in Indore, Bhopal and parts of Baghelkhand and Malwa and is in progress elsewhere. Operations have been stopped in parts of Gwalior, Baghelkhand, Bundelkhand and the Alampur pergana of Indore for want of rain. Standing crops are bad in parts of Gwalior and the Alampur pergana of Indore, indifferent in Baghelkhand and fair in Bhopal. Autumn crops are withering in Bundelkhand. The crops have been damaged for want of rain in the Alampur pergana of Indore, Bhopal, Baghelkhand and Bundelkhand. Cattle disease prevails in parts of Gwalior, Indore, Baghelkhand and Bundelkhand. The supply of fodder is indifferent in Baghelkhand, scarce in Gwalior, the Alampur pergana of Indore and in Bundelkhand. Prices are rising in Gwalior, Bhopal and parts of Bundelkhand and are above normal in Baghelkhand and steady elsewhere.

Central Provinces.—The weather continues to be clear and occasionally cloudy. The nights and mornings are cold. Spring crops are deteriorating in some places for want of moisture. Harvesting and threshing of autumn crops and picking of cotton are well advanced. Fodder and water are reported to be insufficient in parts of five districts. Agricultural stock is in good condition. Variations in prices are unimportant but generally indicate an upward tendency.

Feudatory States. Only Jashpur had eighty-three cents of rain. Reaping of autumn crops continues. Wheat in Sarangarh and wheat and gram in Jashpur fell by four seers per rupee. Rice sells cheaper in Sarangarh and dearer in Udaipur by two seers per rupee.

Bombay.—During the week rain fell in parts of the Thar and Parkar, Kaira, Ratnagiri, Satara, Bijapur, Savantvadi and Kolhapur Districts. Standing crops have been slightly damaged by rats in Ahmedabad, Kaira, Palanpur, and Rewa Kantha and by grasshoppers in parts of Broach and Serat. They are withering in parts of Ahmednagar, Poona and Sholapur and are good elsewhere. Harvesting and threshing of autumn crops generally continue. The sowing of spring crops is progressing except in the Konkan, the Deccan and the Karnatak. Cotton picking continues in parts of Thar and Parkar, Nawabshah, the Deccan, Kathiawar and Baroda. The supply of fodder is sufficient except in parts of Poona, Sholapur, Satara and Bijapur. Agricultural stock is sufficient except in parts of Ahmednagar and Poona and is in good condition except in Sholapur. Drinking water is adequate except in parts of Sholapur and Satara and water for irrigation is deficient in parts of Ahmednagar, Sholapur, Satara and Dharwar. Prices are high but generally steady. Stocks of grain are sufficient.

Hyderabad.—During the week light isolated showers fell in a few districts. Autumn cotton is being picked. The harvesting of other autumn crops has been almost completed. The early rice crop is generally fair to good but has suffered in parts of the Gulbarga, Mahbubnagar, Warangal and Karimnagar districts and in a few other isolated parts. The spring crops are being sown and weeded. The crop is fair to good except in parts of the Warangal district. The wheat crop has been damaged by insects in parts of the Rajura taluka of the Adilabad district. Lands are being prepared for late rice and sowings have commenced. Scarcity of fodder prevails in four and water scarcity in eleven districts. Cattle disease prevails in one taluka. Variations in prices of grains are insignificant. The highest price in districts is eight seers per rupee in Mahbubnagar and Karimnagar and the lowest, eighteen in Bidar.

Mysore.—There was no rainfall during the week. The price of rice has slightly risen in Hassan and fallen in Chitaldroog and that of *ragi* has slightly risen in Kadur. The markets are well supplied. Standing crops are in fair condition except in parts of the state where they are withering but want of rain is generally felt. Harvesting continues with outturn poor to fair. Cattle are generally healthy and water and fodder are available.

Coorg.—Agricultural prospects are good. Picking of cardamoms is nearly completed and that of coffee continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall during the week was very heavy in Tanjore, heavy in Ramnad, fair to good in Trichinopoly, Travancore, the Karnatak except Nellore and in the south except Tanjore and nil or light elsewhere. Standing crops are fair to good but require rain in some places. Harvesting of dry crops and paddy is proceeding with outturn fair to normal. Generally sowings of paddy are ending and those of dry crops are proceeding normally for most part. The condition of cattle is generally good. The supply of water is insufficient for irrigation in many places. Fodder is insufficient in some places. Prices are stationary.

NOTICE.

No. 7.

(All the talukas of the Kolaba District except Karjat and Panvel.)

1. Tenders are hereby invited for the contract to supply country spirit to all the talukas of the Kolaba District except Karjat and Panvel, that is, to the talukas of Alibagh, Pen (including Nagothna Petha), Roha, Mangaon, and Mahad and to the villages in the Sudhagad Mahal of the Bhor State attached to that district for Abkari management, for a period of three years from 1st April 1915.

2. The spirit may be manufactured at any of the Central Distilleries of the Presidency Proper or at the Uran Distilleries. The contractor will manufacture the spirit from mhowra flowers, or from molasses, cane juice (shir), unrefined cane sugar (gur), or unrefined palm sugar (jagri), provided that he may not, without the written permission of the Commissioner of Customs, Salt, Opium and Abkari in any calendar month, use bases other than mhowra in a greater proportion than 50 per cent. of the whole materials used. He will be required to supply spirit at such issue strengths as may, from time to time, be prescribed by Government. The issue strengths authorized at present are as follows :—

25° U. P. and 60° U. P.

The annual consumption of country spirit in the talukas of the Kolaba District (including Sudhagad Mahal) required to be supplied under this tender for the five years ending March 1913 was as under :—

It is intended that the spirit shall be distributed from warehouses at Ambepura (Poinad), Roha and Mahad, but Government reserve to themselves the right to establish new warehouses at such other places within the contract area as they may deem suitable.

3. All spirit that is not manufactured in a patent still must be distilled twice before issue. Reduction with water to the prescribed issue strengths in the distillery or the warehouses must be made under the following conditions :—

- (1) Unless the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces is satisfied and certifies to that effect in writing that the water intended for use in reducing is obtained from a source uncontaminated and free from the likelihood of contamination, such water, prior to use, shall be raised to a temperature of not less than 212° F. and shall be kept at that temperature for at least ten minutes.
- (2) No reduction by the addition of water shall be permitted over a greater range than 85 proof degrees.

Pending completion of the warehouses to be built at Ambepura (Poinad), Roha and Mahad the spirit will be distributed from the present depôts established at Alibag, Pen, Roha and Mahad. The contractor will be required to take over at prices to be fixed by the Collector such portions of the plant at those depôts as may, in the opinion of the Commissioner, be serviceable and suitable for use in a bonded warehouse. If the contract is not renewed, the contractor shall, if so required by the Commissioner, make over the plant in the bonded warehouses on the expiration of the contract to the next contractor at a reasonable valuation to be determined by the Commissioner and the contractor shall, if not so required, have the option to be declared not later than three months before the expiration of the contract of making over the said plant on the expiration of the contract to Government at a reasonable valuation to be determined by the Commissioner after considering any representation in the matter which the contractor may desire to submit, but the contractor shall not have such option in respect of any portion of the said plant which in the opinion of the Commissioner is unsuitable or unserviceable.

4. Every licensed vendor within the area to which the contract relates will be required to obtain his supplies of country spirit from the contractor subject, however, to the proviso that an incoming vendor will purchase from the outgoing vendor at current prices (to be determined in case of dispute by the Collector) such stock of country spirit as may remain unsold at the shop on the night of the 31st March 1915 or on the expiry or cancellation of the license of the outgoing vendor.

5. The cost of the establishments maintained for Government purposes at the warehouses will be defrayed by Government. The contractor will have to pay such rent for each warehouse occupied as may be determined by the Commissioner, but Government reserve to themselves the power to raise the rent during the currency of the contract if any material additions or alterations are made in any of these buildings. The contractor will be required at his own expense to maintain the warehouse plant in good condition to the satisfaction of the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces, but he will not have to bear any charges on account of the cost of repairs to the warehouses which will be carried out by Government at their expense.

8. Except with the special permission of the Collector, the contractor will not be allowed to hold any interest in the retail vend of country spirit or any other exciseable article within the area to which his contract for the supply of country spirit relates or to employ any person who has such interest.

9. Tenderers should state the lowest rate per proof gallon of spirit at which they will be prepared to supply vendors at the warehouses established by Government. One rate should be quoted for the whole of the contract area.

The tender must reach the Commissioner of Customs, Salt, Opium and Abkari at the Town Custom House, Bombay, before 12 o'clock noon on Monday the 16th February 1914 after which no tender will be received.

11. Government reserve power to accept such tenders as they may deem best in the public interest and to reject all or any of those received without assigning any reasons.

WHEREAS the Rulers of the territories of Mysore have, since the restoration to them of the said territories in 1881, evinced their zeal and attachment to the Crown, and whereas the administration of the Mysore State has been conducted during the past thirty-two years to the satisfaction of the British Government, and whereas, in order to mark the high esteem in which His Highness the Maharaja is held by the British Government, the Governor-General of India in Council is desirous of making certain changes in the conditions laid down at the time of such restoration, the following Articles are hereby agreed upon :—

ARTICLE 1.

The Maharaja Sri Krishnaraja Wadiyar Bahadur and those who succeed him in manner hereinafter provided shall be entitled to hold possession of, and administer, the said territories perpetually, subject to the conditions hereinafter prescribed.

ARTICLE 2.

The succession to the administration of the said territories shall devolve upon the lineal descendants of the said Maharaja Sri Krishnaraja Wadiyar Bahadur, whether by blood or adoption, according to the rules and usages of his family, except in case of disqualification through manifest unfitness to rule :

Provided that no succession shall be valid until it has been recognised by the Governor-General in Council.

In the event of a failure of lineal descendants, by blood and adoption, of the said Maharaja Sri Krishnaraja Wadiyar Bahadur, it shall be within the discretion of the Governor-General in Council to select as a successor any member of any collateral branch of the family whom he thinks fit.

ARTICLE 3.

The Maharaja Sri Krishnaraja Wadiyar Bahadur and his successors (hereinafter called the Maharaja of Mysore) shall at all times remain faithful in allegiance and subordination to His Imperial Majesty the King Emperor of India, His Heirs, and Successors, and perform all the duties which in virtue of such allegiance and subordination may be demanded of them.

WHEREAS it is expedient further to amend the Negotiable Instruments Act, 1881, so as to remove doubts as to the validity of the making and endorsing of negotiable instruments in certain forms; It is hereby enacted as follows:—

1. This Act may be called the Negotiable Instruments (Amendment) Act, 1913.

2. In section 13 of the Negotiable Instruments Act, 1881 (hereinafter called the said Act), after the figures "13" insert the

Amendment of section 13, Act XXVI of 1881.

figures and signs "(1)", and to the same section add the following sub-section, namely:—

"(2) A negotiable instrument may be made payable to two or more payees jointly or it may be made payable in the alternative to one of two, or one or some several payees."

3. In section 16 of the said Act, after the figures "16" insert the figure and signs "(1)" and to the same section add the following sub-section, namely:—

"(2) The provisions of this Act relating to a payee shall apply with the necessary modifications to an indorsee."

STATEMENT OF OBJECTS AND REASONS.

It has long been the practice in this country to endorse negotiable instruments, particularly Government promissory notes, in such a way as to make them payable to two or more payees jointly, or in the alternative to one or some of several payees. Doubts have arisen as to the legal validity of such endorsements, and the present Bill is designed to place their validity beyond question. The amending Bill will affect all three forms of negotiable instruments, *viz.*, cheques, promissory notes, and bills of exchange, and will result in a close approximation of the Indian to the English law on the subject.

CIRCULAR No. 2-C.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

FORESTS.

**REGULATIONS FOR APPOINTMENT OF PROBATIONERS TO
INDIAN FOREST SERVICE.**

Delhi, the 11th December 1913.

The following Regulations for the selection and training of probationers for the Indian Forest Service are published :—

INDIAN FOREST SERVICE.

Regulations as to the appointment of Probationers, 1914.

1 *Appointments.*—The Secretary of State for India in Council will, in the summer of 1914, make **not less than five appointments** of Probationers for the Indian Forest Service, provided that so many candidates are considered to be in all respects qualified.

In making these appointments, he will act with the advice of a Selection Committee.

2 *Applications for Appointment.*—Applications for appointment must be made on a printed form to be obtained from the Secretary, Revenue Department, India Office, Whitehall, London, S.W., and to be returned to him not later than **Wednesday the 1st July 1914**. Candidates must be prepared, if called upon, to attend at the India Office, at their own expense, for a personal interview with the Selection Committee within three weeks from that date.

3 *Age Limit.*—Candidates must be not less than 19 but under 22 years of age on the 1st January 1914.

NOTE.—For the year 1914 only, candidates who have taken an honours course (or other course specified in paragraph 5) which, under the Regulations of the University, occupies four years, will be subject to the age limits which have hitherto been in force, viz., 19 and 23 on the 1st July of the year in which selection is made.

4 *Nationality, etc.*—Every candidate must be a natural-born subject of His Majesty. He must be prepared to give an undertaking, if selected, that he will not marry before he reaches India. If he does so, he will forfeit his appointment. He must be of good physique, and must produce evidence of character to satisfy the Secretary of State for India in Council that he is suited for the Indian Forest Service.

5 *Qualifications.*—Candidates must have obtained a degree *with Honours* in some branch of Natural Science* in a University of England, Wales, or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland.† A degree in Applied Science will not be considered as fulfilling these conditions. Candidates will be required to produce evidence that they have a fair knowledge of either German or French.

Note.—Applications for appointment will be accepted from candidates who on the 1st July 1914 have already sat at an examination for a degree as mentioned above, but have not learned the result of the examination.

* A Moderatorship in Natural Science or in Experimental Science at the University of Dublin will be considered as fulfilling these conditions.

† Graduates in Forestry at the University of Edinburgh are regarded as satisfying the requirements of the paragraph if they pass the Final Examination of that University in some one branch of Natural Science embraced in the degree in Pure Science.

6. Should there be more candidates considered to be qualified in every respect than vacancies to be filled, the Secretary of State reserves the right to require them to pass a competitive examination conducted by the Civil Service Commissioners, on the results of which their final selection would depend. Particulars of this examination, which would be held in August, will be found in Appendix I.

7. *Medical Examination.*—Selected candidates will be required to undergo a strict examination by a Medical Board at the India Office, at which particular stress will be laid on good vision and hearing, and to satisfy the Secretary of State for India that they are physically fit for service in the Indian Forest Department (see Appendix VI).

Candidates who do not satisfy the Secretary of State for India that they are physically fit for appointment to the Indian Forest Service will not be admitted to the competitive examination mentioned in Regulation 6.

8. *Period of Probation.*—Before appointment to the Indian Forest Department, a probationer will be required :—

- (i) to have obtained, either before selection as probationer, or within the period of two years' probation, the degree or diploma in Forestry at one of the Universities named in the margin* ;
- (ii) to have undergone a special course of instruction in Forestry, under the direction and supervision of the Director of Indian Forest Studies appointed by the Secretary of State for India in Council, in such British and Continental localities as may be selected for the purpose ;
- (iii) to have passed an examination in certain special subjects, namely, Systematic Botany of Indian trees, Indian Geology, Forest Law, Indian Working Plans, and, if required, an Indian vernacular language ;
- (iv) to have undergone a final competitive examination in Forestry (See Appendix II) ;
- (v) to have satisfied the Secretary of State, in such manner as may be determined, of his ability to ride.

* Cambridge, Oxford, or Edinburgh.

The period of probation will in ordinary cases be two years. The Director of Indian Forest Studies will instruct probationers in each case as to the order and manner in which they should fulfil these various requirements.

9. *Charges.*—The probationers will be required to defray all expenses of lodging, board, tuition, and excursions, while at the University, and on practical instruction in Great Britain and on the Continent, with the exception of fees payable to local forest officers in Great Britain and on the Continent.

10. *Allowances.*—The Secretary of State for India in Council will make payments to each probationer at the rate of 120*l.* annually, not exceeding a total of 240*l.* (besides the fees to local officers mentioned above) These payments will ordinarily be made on the following dates in each year :—

	£
On the 1st December	30
On the 1st March	30
On the 1st June	60

The cases of probationers whose probation does not extend over the full two years will be specially considered.

The grant of the allowances is subject to the following conditions :—

- (a) that the progress of the probationer in his studies is satisfactory ;
- (b) that the probationer gives security to refund the payments in respect of this advance, as well as such payments, not exceeding 60*l.* in all, as may have been incurred by the Secretary of State on the probationer's behalf in respect of fees to local forest officers, in the event of his failing to qualify for an appointment in the Indian Forest Service, or not signing the articles of agreement as specified in paragraph 13, or failing to join the Indian Forest Service at the end of the period of probation.

11. *Conduct.*—Every Probationer will be required to conduct himself during the period of probation in a manner satisfactory to the Secretary of State, and to give evidence of satisfactory progress in his studies in such a manner as may be required, failing which, or in the event of serious misconduct, he will be liable to have his name removed from the list of Probationers.

12. *Appointment and Seniority.*—Probationers who comply with the requirements of Regulation 8 within the sanctioned period of time, and also satisfy such other tests as may be prescribed, will be appointed Assistant Conservators in the Indian Forest Department, provided they are of sound constitution and free from physical defects which would render them unsuitable for employment in the Indian Forest Service. Their position in the provincial Forest Lists will be determined by the Secretary of State for India in Council on the report of the Director of Indian Forest Studies; but in making selections for the post of Conservator, officers joining the service in the same year are reckoned as equal in seniority unless the Secretary of State for India in Council shall for special reasons have directed otherwise in any particular case or cases.

Probationers will be allowed at the end of the period of probation to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made to the several Provinces according to the needs of the public service, at the discretion of the Secretary of State for India in Council. Officers are, however, at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

13. *Articles of Agreement.*—A probationer is required, on qualifying for appointment as Assistant Conservator, to sign articles of agreement setting forth the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and must engage his own passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

14. *Passage allowance.*—An allowance on account of passage to India will be paid to each probationer on appointment to the Indian Forest Service, to the amount of 37*l.* 10*s.* for passage to Calcutta, Madras, or Bombay, and 43*l.* for passage to Rangoon.

Note.—The above is the normal rate of passage allowance. In consequence of the surtax of 10 per cent. at present charged by shipping companies in respect of passages to India the above rates of passage allowance have been raised to 41*l.* 5*s.* and 46*l.* 5*s.* respectively. Should this surtax be removed, these rates will be reduced to those given in paragraph 14.

15. *Salary.*—An Assistant Conservator of Forests will draw pay at the rate of Rs. 380 a month (equivalent to 30*l.* a year, when the rupee is at 1*s.* 4*d.*) from the date of his reporting his arrival in India.

16. *Promotion, Leave, Pension, and Provident Fund.*—Promotion, leave and pension will be governed by the Regulations laid down by the Government of India, and applicable to Forest officers, such regulations being subject to any modifications or alterations which may be made in them from time to time by the Government of India, and their interpretation in case of any doubt arising being left to that Government. A copy of the existing regulations can be seen on application at the India Office.

Certain information regarding appointments in the upper controlling staff of the Indian Forest Service, the pay of which has been recently improved, will be found in Appendix III; a summary of information regarding Leave is contained in Appendix IV; and regarding Pensions and the Provident Fund in Appendix V.

[NOTE.—Appendices IV and V are intended merely to show the principal leave and pension rules in the Civil Service Regulations at present applicable to officers appointed to the Indian Forest Service by the Secretary of State from the United Kingdom, without going into minute details, and do not profess to deal with every case that may arise. The rules are subject to alteration, and any disputed question must be decided with reference to the authorised text of the Civil Service Regulations for the time being.]

LEAVE.

Long Leave.

1. Furlough and special leave with allowances (*see* paragraph 5) are admissible to an aggregate maximum amount of six years during an officer's service. The amount of furlough "earned" is one-fourth of an officer's active service, and the amount "due" is that amount less any enjoyed.

2. Furlough without medical certificate can, if due, be generally taken after eight years' active service, and again after intervals of not less than three years' continuous service. It is limited to two years at a time.

3. Furlough on medical certificate may be granted (a) to an officer who has rendered three years' continuous service, for not more than two years, but capable of extension up to three years; and (b) to an officer who has not rendered three years' continuous service, up to one year in any case, and up to such longer period, if any (but not exceeding two years in all), as the officer may have furlough "due" to him.

4. The allowances admissible during furlough are :—

- (1) During the first two years of furlough without medical certificate and during so much of furlough with medical certificate as may be "due"—half average salary, subject to certain maximum and minimum limits.

* The officer holding this appointment draws in addition to the pay of his grade a minimum local allowance of Rs. 200 a month.

† These appointments are allotted to the various provinces as follows :—Burma, 65; Madras, 31; Bombay, 27; Central Provinces, 24; United Provinces, 19; Punjab, 12; Bengal, 12; Assam, 13; and Bihar and Orissa, 5; and 4 Imperial Instructors at Dehra Dun.

‡ Until he has passed the prescribed Departmental examinations, an Assistant Conservator is liable to stoppage of increments of pay. On passing the examinations he will resume drawing pay under the time-scale at the rate to which his length of service entitles him.

§ These draw a local allowance of Rs. 150 a month in addition to their grade pay, with the exception of the President, Forest Research Institute and College, in whose case the allowance is at the rate of Rs. 200 a month. Of these 10 appointments, the four posts of Imperial Instructors have been sanctioned for five years from 1912, for the present.

NOTE.—Under the improved scale of salary shown above, no Exchange Compensation Allowance is granted.

- (2) After the expiration of the period for which the foregoing allowances are admissible—one quarter of average salary, subject to certain maximum and minimum limits.

5. Special Leave may be granted at any time for not more than six months, with intervals of six years' service; allowances, calculated as during furlough, are given during the first six months only, whether taken in one or more instalments.

Short Leave.

6. Privilege Leave is a holiday which may be granted to the extent of one-eleventh part of the time that an officer has been on duty without interruption; and it may be accumulated up to three months, earned by 33 months' duty. During privilege leave, the officer retains a lien on his appointment, and receives the salary which he would have received if on duty. An interval of not less than six months must elapse between two periods of absence on privilege leave.

Privilege leave may be prefixed to furlough, special leave, or extraordinary leave without allowances. The whole period of leave thus taken in combination is known as combined leave. Combined leave may not be granted for a period of less duration than six months, nor, except on medical certificate, may it be extended beyond two years.

7. Subsidiary Leave in India for a minimum of 10 days, usually with half average salary, is granted to an officer proceeding on or returning from leave out of India, or on retirement, to enable him to reach the port of embarkation or to rejoin his appointment. It is admissible only at the end and not at the beginning of combined leave.

8. Short Leave is also granted to enable officers to appear at examinations, etc.

9. Extraordinary Leave without allowances may be granted in case of necessity, and, except in certain specified cases, only when no other kind of leave is by rule admissible. It may be granted in continuation of other leave.

General Rules.

10. Leave of absence can never be claimed as of right, and is given or refused at the discretion of Government.

11. When leave allowances other than privilege leave pay are paid at the Home Treasury, or in a Colony where the standard of currency is gold, rupees are converted into sterling at the rate of exchange fixed for the time being for the adjustment of financial transactions between the Imperial and Indian Treasuries, unless any other rate has been exceptionally authorised. But for the present the rate of conversion is subject to a minimum of 1s. 6d. to the rupee. Privilege Leave pay when issued from the Home Treasury (this is only admissible when privilege leave is combined with other leave) is converted at 1s. 4d. to the rupee.

APPENDIX V.

(See Note under Appendix IV.)

PENSIONS AND PROVIDENT FUND.

1. An officer of the Indian Forest Service is eligible for a pension on voluntary retirement after completing 20 years' qualifying service or attaining the age of 55 years. APPENDIX VI.

GENERAL PHYSICAL REQUIREMENTS.

[*Note.*—These Regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Secretary of State reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service; and that his discretion is in no respect limited by these Regulations.]

1. A candidate must be in good mental and bodily health, and free from any physical defect likely to interfere with efficient performance of duty.

2. In the examination of candidates the Medical Board will apply the following table of correlation of age, height, and chest girth :—

Age.	Height without Shoes.	Chest.	
		Girth when expanded.	Range of Expansion.
	Inches.	Inches.	Inches.
19 to 20	62½ and under 65	35	2
	65 .. 68	35	2
	68 .. 70	35½	2
	70 .. 72	36	2
	72 and upwards.	36½	2½
21 and upwards	62½ and under 65	35	2
	65 .. 68	35½	2
	68 .. 70	36	2
	70 .. 72	36½	2½
	72 and upwards.	37	2½

3. *Measurement of Height.*—The candidate will be placed against the standard with his feet together, and the weight thrown on the heels, and not on the toes or outside of the feet. He will stand erect without rigidity, and with the heels, calves, buttocks, and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be noted in parts of an inch to eighths. No fixed limit of height is imposed.

4. *Measurement of Chest.*—The candidate will be made to stand erect with his feet together, and to raise his hands above his head. The tape will be carefully adjusted round the chest, the posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. This maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and the maximum will then be recorded.

5. The hearing must be good.

6. The speech without impediment.

7. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth where necessary for effective mastication.

8. The chest must be well formed, the lungs and heart sound.

9. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation.

10. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

11. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

12. A candidate must not be the subject of chronic skin disease.

13. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

14. Candidates may, not more than two years before they are qualified to compete for an appointment, undergo a preliminary examination by the Medical Board, which meets at the India Office every Tuesday, under the following conditions :—

(a) Applications must be addressed to the Under Secretary of State, India Office, Whitehall, London, accompanied by a fee of two guineas, and a statement of the candidate's age.

(b) Candidates must pay their travelling expenses.

(c) Candidates considered to be unfit by the Medical Board at this preliminary examination are not bound to accept its opinion, but may, *at their own risk*, continue their studies, with the knowledge that they will have to submit themselves for a final medical examination by the Medical Board, prior to their appointment.

(d) On the other hand it must be distinctly understood that the preliminary examination by the Medical Board is held solely for the candidate's information, and that, if after that examination he is reported to be apparently fit, he has not on that account any claim to be accepted as physically fit, when he presents himself for the final Medical Examination, upon which alone his acceptance or rejection will depend. Candidates may be considered fit for the service at the preliminary examination, but may be found at the final examination to be unfit, either on account of some physical defect which did not exist or passed undetected at the preliminary examination, or for other reasons.

REGULATIONS AS TO THE STANDARD OF VISION FOR THE INDIAN FOREST SERVICE.

1. If myopia in one or both eyes exists, a candidate may be passed, provided the ametropia does not exceed 2.5 D, and if with correcting glasses, not exceeding 2.5 D, the acuteness of vision in one eye equals $\frac{6}{6}$, and in the other $\frac{6}{6}$, there being normal range of accommodation with the glasses.

2. Myopic astigmatism does not disqualify a candidate for service, provided the lens or the combined spherical and cylindrical lenses required to correct the error of refraction do not exceed 2.5 D; the acuteness of vision in one eye, when corrected, being equal to $\frac{6}{6}$, and in the other eye $\frac{6}{6}$, together with normal range of accommodation with the correcting glasses, there being no evidence of progressive disease in the choroid or retina.

3. A candidate having total hypermetropia not exceeding 4 D is not disqualified, provided the sight in one eye (when under the influence of atropine) equals $\frac{6}{6}$, and in the other eye equals $\frac{6}{6}$, with + 4 D or any lower power.

4. Hypermetropic astigmatism does not disqualify a candidate for the service, provided the lens or combined lenses required to cover the error of refraction do not exceed 4 D, and that the sight of one eye equals $\frac{6}{6}$ and of the other $\frac{6}{6}$, with or without such lens or lenses.

5. A candidate having a defect of vision arising from nebula of the cornea is disqualified if the sight of one eye be less than $\frac{6}{12}$. In such a case the better eye must be emmetropic. Defects of vision arising from pathological or other changes in the deeper structures of either eye, which are not referred to in the above rules, may exclude a candidate for admission into the service.

6. Squint, or any morbid condition, subject to the risk of aggravation or recurrence, in either eye, may cause the rejection of a candidate. The existence of imperfection of colour sense will be noted on the candidate's papers.

Ordered that a copy of the foregoing Regulations be forwarded for information to the Local Governments and Administrations noted in the margin, the Inspector-General of Forests and the Comptroller, India Treasuries. Also that the Regulations be published in the Supplement to the *Gazette of India*.

Dated 11th December 1913.

E. D. MACLAGAN,
Secretary to the Government of India.

Rajputana.—During the week the weather was generally cloudy and rain fell in several districts which has improved the situation in Ajmer and benefited the standing crops in a few other places. More rain is badly needed in the Eastern States and in Central Rajputana where the sowing of spring crops is restricted. Elsewhere the prospects of the spring harvest are fair to good. Cattle are doing well. Fodder is insufficient in the Eastern States and Central Rajputana. The distribution of grass *takavi* is in progress in Merwara. The supply of water is generally sufficient. Prices are high and stationary. The numbers on the test works are as follows :—Merwara 72.

Central India.—During the week the rainfall was general in Bhopal, partial in Baghelkhand and slight in parts of Indore, Bundelkhand and Bhopawar. The weather was clear and cool. More rain is badly wanted in parts of Gwalior, Bhopal, Baghelkhand, Bundelkhand and in Mehidpur, the Rampura Bhanpura district and the Alampur pergana of Indore. Harvesting of autumn crops has been completed in Gwalior and is in progress elsewhere. The sowing of spring crops has been completed in Indore and parts of Baghelkhand and is in progress elsewhere. Operations have been stopped in parts of Gwalior, Baghelkhand, Bundelkhand and the Alampur pergana of Indore for want of rain. Standing crops are bad in parts of Gwalior and the Alampur pergana of Indore, indifferent in Baghelkhand and fair in Bhopal. Autumn crops are withering in Bundelkhand. The crops have been damaged for want of rain in the Alampur pergana of Indore, Baghelkhand and Bundelkhand. Cattle disease prevails in parts of Gwalior, Indore, Bhopal and Baghelkhand. The supply of fodder is bad in parts of Gwalior and insufficient in the Alampur pergana of Indore, Baghelkhand and Bundelkhand. Prices are rising in Gwalior, Bhopal and parts of Bundelkhand, are below normal in Baghelkhand and steady elsewhere.

Central Provinces.—During the week the weather was cloudy and cool. Light to moderate rain fell all over the Provinces nowhere exceeding $2\frac{1}{2}$ inches. Reaping and threshing of autumn crops and picking of cotton continued. The rainfall has considerably improved the condition of the spring crops. The supply of fodder and water is generally adequate except in parts of Jubbulpore and the Vindhyan districts. Prices of food grains remained fairly steady or fluctuated slightly.

Feudatory States.—During the week nine States had rain ranging from 15 cents to 2 inches. Harvesting and threshing of autumn crops were in progress. The price of rice fell in Bastar and that of wheat rose in Sarangarh by four seers per rupee.

Bombay.—During the week rain fell in parts of Sind, Ahmedabad, the Panch Mahals, the Deccan, the Karnatak and Kolhapur and was beneficial to standing crops. The crops have been slightly damaged by rats in Ahmedabad and Palanpur, are withering in parts of Ahmednagar, Poona, Sholapur and are good elsewhere. Harvesting and threshing of autumn crops generally continue. The sowing of spring crops is progressing in Sind and in the Native States of Gujarat. Cotton picking continues in parts of Thar and Parkar, Nawabshah, the Deccan, Kathiawar and Baroda. The supply of fodder is sufficient except in parts of Poona, Sholapur and Satara. Agricultural stock is sufficient except in parts of Ahmednagar and Poona, and good except in Sholapur. Drinking water is adequate except in parts of Sholapur and Satara and water for irrigation is sufficient except in Ahmednagar, Sholapur and Satara. Prices are rising in Sind and are steady elsewhere. Stocks of grain are sufficient.

Hyderabad.—During the week the weather was cloudy. There was no change in crop prospects.

Mysore.—During the week the rainfall was very slight in Bangalore, Kolar and Kadur and *nil* elsewhere. The price of rice is rising slightly in Kolar and Chitaldroog and has fallen in Hassan and Kadur. That of *ragi* has risen slightly in Tumkur and Mysore and has fallen in Kadur. Markets are well supplied. Standing crops are in fair condition except in some parts of the State where they are withering but want of rain is generally felt. Harvesting continues with outturn poor to fair. Cattle are generally healthy and water and fodder are available.

Coorg.—Agricultural prospects are good. Picking of coffee continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—During the week the rainfall was good to very heavy in Cuddapah, the Karnatak, Central Travancore, the Nilgiris and in the south except Madura, fair in the Banganapalle State, Madura, Malabar and Cochin and light or *nil* elsewhere. Standing crops are fair to good but require rain in some places. Harvesting of dry crops and paddy is proceeding with outturn fair to normal. Generally sowings of paddy are ending and those of dry crops are proceeding normally for the most part. The condition of cattle is generally good. The supply of water is insufficient for irrigation in a few places chiefly in the Deccan and the Circars. The supply of fodder is generally sufficient. Prices show a downward tendency.

Picking of cotton and pressing of sugarcane are in progress with yield average to good except in parts of the south-east where outturn of cotton is below average on unirrigated lands. The sowings of spring crops continue and are normal on irrigated lands but are restricted for want of rain on unirrigated lands (except in the west and north-west). The condition of standing spring crops is generally average to good but crops on unirrigated lands in the south-east are suffering from drought. It is intended that the spirit shall be distributed from the Godhra Distillery and from warehouses at Ahmedabad, Anand and Broach, but Government reserve to themselves the right to establish new warehouses at such other places within the contract area as they may deem suitable.

3. All spirit that is not manufactured in a patent still must be distilled twice before issue. Reduction with water to the prescribed issue strengths in the distillery or the warehouses must be made under the following conditions :—

(1) Unless the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces is satisfied and certifies to that effect in writing that the water intended for use in reducing is obtained from a source uncontaminated and free from the likelihood of contamination, such water, prior to use, shall be raised to a temperature of not less than 212° F. and shall be kept at that temperature for at least ten minutes.

(2) No reduction by the addition of water shall be permitted over a greater range than 85 proof degrees.

4. The Contractor will take over the plant in the Central Distillery at Godhra and the warehouses at Ahmedabad, Anand and Broach at a price to be fixed by the Collector and shall pay on or before 1st April 1915 the amount at which the said plant is thus valued. The approximate value of the plant at Godhra is Rs. 2,19,568. If this contract is not renewed, the Contractor shall, if so required by the Commissioner, make over the said plant on the expiration of the contract to the next Contractor at a reasonable valuation to be determined by the Commissioner, and the Contractor shall, if not so required, have the option, to be declared not later than three months before the expiration of the contract, of making over the said plant on the expiration of the contract to Government at a reasonable valuation to be fixed by the Commissioner after considering any representation in the matter which the Contractor may desire to submit, but the Contractor shall not have such option in respect of any portion of the said plant which is in the opinion of the Commissioner unsuitable or unserviceable.

5. Every licensed vendor within the area to which the contract relates will be required to obtain his supplies of country spirit from the Contractor subject, however, to the proviso that an incoming vendor will purchase from the outgoing vendor at current prices (to be determined, in case of dispute, by the Collector) such stock of country spirit as may remain unsold at the

shop on the night of the 31st March 1915 or on the expiry or cancellation of the license of the outgoing vendor.

6. The cost of the establishments maintained for Government purposes at the distillery and warehouses will be defrayed by Government, but the Contractor will have to pay rent for the distillery and for each warehouse placed in his possession as follows : Godhra Distillery Rs. 246, Ahmedabad Bonded Warehouse Rs. 25, Anand Bonded Warehouse Rs. 16, and the Broach Bonded Warehouse Rs. 40 per mensem, but Government reserve to themselves power to raise the rent during the currency of the contract if any material additions or alterations are made in any of these buildings. The Contractor will be required, at his own expense, to maintain the distillery and warehouse plant in sound working order and in good condition to the satisfaction of the Assistant Commissioner of Excise, but he will not have to bear any charges on account of the cost of repairs to the buildings which will be carried out by Government agency and at the expense of Government.

7. The rates of still-head duty now in force in the Ahmedabad, Kaira, Panch Mahals and Broach Districts are shown in the subjoined table, but Government reserve to themselves power to raise or to revise them from time to time if they deem fit :—

8. The Collector will grant such number of licenses for retail vend as he thinks necessary, from time to time, and will dispose of such licenses in such manner and for such periods as he may deem proper.

9. Except with the special permission of the Collector the Contractor will not be allowed to hold any interest in the retail vend of country spirit or any other exciseable article within the area to which his contract for the supply of country spirit relates or to employ any person who has such interest.

P., at the distillery and at the bonded warehouses at Ahmedabad, Anand and Broach to such of the retail vendors as may be allowed by the Collector to sell it, will be permitted at the discretion of the Collector of the district concerned. The tenderers should, therefore, also state if they desire to manufacture such liquor, and, if so, should quote in their tender the price at which they would be prepared to supply the same.

12. Each tender must be accompanied by a deposit of Rs. 1,000 and must be enclosed in a cover superscribed with the words "Tender for the exclusive privilege of manufacture and supply of country spirit in the Ahmedabad, Kaira, Panch Mahals and Broach Districts," this cover being enclosed in another marked "Confidential" and simply addressed to the Commissioner of Customs, Salt, Opium and Abkari. The tender must reach the Commissioner of Customs, Salt, Opium and Abkari at the Town Custom House, Bombay, before 12 o'clock noon on Monday, the 16th February 1914, after which no tender will be received.

13. Government reserve power to accept such tender as they may deem best in the public interest and to reject all or any of those received without assigning any reasons.

14. The decision of Government will be communicated to the tenderers concerned, and the deposits of the unsuccessful tenderers will be returned to them.

15. The successful tenderer shall, within one week after the decision of Government has been communicated to him, deposit as security with the Collector of the Panch Mahals a sum of Rs. 4,000 in cash or Government Promissory Notes endorsed to the Collector in addition to the deposit of Rs. 1,000 required under clause 12 *ante*; and if he fails to do so, the decision accepting the tender will be cancelled, the deposit already made will be forfeited, and Government will otherwise dispose of the contract.

16. When the full deposit of Rs. 5,000 has been made, the person whose tender and final deposit have been accepted shall execute agreements binding the same person for himself, his heirs, successors and assigns to the conditions set forth in the form of license to manufacture and supply country spirit, which can be seen at the office of the Collector of any of the districts concerned and of the Commissioner of Customs, Salt, Opium and Abkari or of the Assistant Commissioner of Excise for the Bombay Presidency and Central Provinces; and if he fails or refuses to sign the agreements within a week from the date on which he is called upon to do so, the deposit already made will be forfeited and the contract will be assigned otherwise as Government may determine.

17. As soon as the agreements have been executed the Commissioner will issue a license to the successful tenderer assigning to him the exclusive privilege of manufacturing and supplying country spirit within the area to which the contract relates.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 13th December 1913.

Burma.—During the week light rain fell in five districts of Upper Burma; also in the Northern Shan States and the Chin Hills. Reaping of the winter rice crop in Lower Burma and cultivation of miscellaneous crops in Upper Burma are progressing normally. The condition of standing crops is generally good. Cattle are healthy and pasturage is sufficient. The price of unhusked rice remains about normal.

Assam.—During the week slight to moderate rain fell in all the districts and caused some damage to the standing *paddy* crops but benefited the cold weather crops. Harvesting of winter rice and pressing of sugarcane are in progress. The sowing of mustard has been finished in some places and that of spring rice (*Boro*) continues in Sylhet. The outturn of transplanted winter rice and the prospects of mustard are fair. The average price of common rice has risen slightly. Cattle disease is reported from four districts. Fodder is insufficient in Sylhet and parts of Darrang.

Bengal.—During the week general rain fell all over the Province facilitating the growth of the spring crops. Harvesting of winter rice is going on briskly but its progress has been retarded in places owing to the recent rainfall. The sowing of spring crops is approaching completion. The outturn of winter rice is reported to be fairly good. The condition and prospects of spring crops are good. Cattle disease is reported from seven districts. The average price of common rice has fallen slightly as compared with that of the previous week. Agricultural loans were issued in Midnapore, Hooghly and Howrah.

Bihar and Orissa.—During the week moderate rain fell in Bihar and Chota Nagpur but there was practically no rain in Orissa. Harvesting of *paddy* and pressing of sugarcane continue. The recent rainfall has done much good to the spring crops which are doing well. The average price of common rice has remained almost stationary as compared with that of the previous week. The supply of fodder is sufficient. Cattle disease is reported from ten districts. Prospects of standing crops in the Prondatory States of Orissa are on the whole good.

United Provinces.—During the week light rain has fallen throughout the Provinces benefiting standing crops generally. More rain is urgently needed in all but the Himalayan and Eastern districts. Standing crops are suffering from drought except in the east of the Provinces and damage from white ants is reported from the Fatehpur district. Germination is generally good. Harvesting of autumn crops is complete. The sowing, irrigation, pressing and ploughing of land for sugarcane are in progress. Cattle disease is still reported from some districts of the Provinces. The scarcity of fodder is increasing but Government hay is being freely distributed for agricultural stock which is in fairly good condition. Water and supplies are sufficient. Prices are generally stationary with a slight upward tendency.

The report on scarcity is as follows:—Scarcity has been declared in the Bundelkhand districts from the 15th December 1913. In Jalaun one test work was opened on eighth, the second will open on the twenty-second and the third on the twenty-ninth December 1913. In Allahabad scarcity has not been declared but one test work is open. The attendance is 293.

Punjab.—During the week light to moderate rain has been nearly general in the Province. More is still wanted. Picking of cotton (except in the south-east) and pressing of sugarcane are in progress with yield normal to good except in a few districts where the picking of cotton is up to the average. The sowings of spring crops are normal except in the south-east where they are restricted owing to want of rain and the poor supply of canal water. The condition of standing spring crops is average to good except in the south-east where unirrigated crops are suffering from drought. *Toria* is being harvested with average yield. Cattle are generally healthy but fodder is scarce in parts of the south-east where prices of wheat are generally close to normal and those of the other grains a little above normal.

North-West Frontier Province.—During the week rain fell throughout the Province except in Dera Ismail Khan. The weather is cold and cloudy. The condition of standing crops is average. Pressing of sugarcane and harvesting of autumn crops is in progress and

the outturn is expected to be normal. The sowings of spring crops are proceeding. Cattle are in good condition. The supply of fodder and water is generally sufficient. Prices of food grains are high and tending to rise.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 10 to 15 and maize from 12 to 25 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in a few tahsils. Fodder is sufficient.

Kashmir.—The rainfall during the week was fair in Anantnag and slight in Baramula. Cattle disease is reported in some parts and is in abatement in Anantnag. The sowings of spring crops are in progress. Prices are normal. Water and fodder are sufficient.

Rajputana.—During the week useful rain was reported in parts of Mewar, Kotah, Jhalawar, Tonk and Jaipur and slight rain in the Eastern States and Ajmer-Merwara. The weather is generally cool and clear. The sowings of spring crops are in progress but are restricted in the Eastern States and in Central Rajputana. Prospects have, however, somewhat improved in many parts of these areas owing to the recent rain. Cattle are doing well. Fodder is generally insufficient in the Eastern States and in Central Rajputana. The distribution of grass *takari* is in progress in Merwara. The supply of water is sufficient. Prices are high and are rising in a few places. The numbers employed on the test works in Merwara are ninety-three.

Central India.—During the week the rainfall was partial in Bhopal and Baghelkhand and slight in parts of Indore, Bundelkhand, Malwa and Bhopavar. The weather is clear and cool. Rain is badly wanted in Gwalior, Bhopal, Baghelkhand, Bundelkhand and in Mehidpur, the Rampur, Bhanpura district and the Alampur pergunah of Indore. Harvesting of autumn crops and sowing of spring crops are in progress in some places. Operations have been stopped for want of rain in parts of Bundelkhand and the Alampur pergunah of Indore. Standing crops are bad in parts of Gwalior, Bundelkhand and in the Alampur pergunah of Indore, indifferent in Baghelkhand and fair in Bhopal. The crops have been damaged for want of rain in the Alampur pergunah of Indore and in Bundelkhand. Cattle disease prevails in parts of Gwalior, Bhopal, Baghelkhand and in the Alampur pergunah of Indore. The supply of fodder is bad in parts of Gwalior, fair in Baghelkhand, and scarce in most parts of Bundelkhand and in the Alampur pergunah of Indore. Prices are rising in Gwalior, Bhopal and in parts of Bundelkhand. They are above normal in Baghelkhand and steady elsewhere.

Central Provinces.—The weather continues to be cool and occasionally cloudy. Only Damoh had ten cents of rain during the week. Harvesting, threshing and winnowing of spring crops and picking of cotton are well advanced. The condition of spring crops is fair to good. The daily average on gratuitous relief during the week in Sholapur and Satara was 286.

Hyderabad.—The rainfall during the week was widespread and somewhat injurious to the autumn crops now being harvested but beneficial to the spring crops. The rainfall was from light to fair in the Bhil, Parbhani and Osmanabad districts and very light and partial elsewhere except in Raichur, Nalgonda, Warangal and Karimnagar districts where no rain fell. The average rainfall was seventeen cents. The highest fall was two inches forty-four cents in Ashti taluk, Bhil district. The spring crops are fair to good and are being weeded. Lands for the late rice crop are being prepared and sowings are being commenced in a few parts. Fodder scarcity prevails in six districts, water scarcity in eight districts and cattle disease in two taluks. Variations in the prices of grains are insignificant. The highest price in districts is 7½ seers per rupee in Mahbubnagar and the lowest eighteen seers in Bidar.

Mysore.—The price of food grains is generally steady and markets are well supplied. Standing crops are in good condition but are withering for want of rain almost throughout the whole State. Harvesting continues with outturn poor to fair. The prospects of the season are fair to good. Cattle are healthy except in parts of Kadur and Shimoga. Water and fodder are available.

Madras.—During the week the rainfall was fair to good in Cuddapah, Nellore, South Arcot, North Arcot, Trichinopoly, Malabar, Travancore and the Nilgiris and light or *nil* elsewhere. Standing crops are fair to good but require rains in some places and have been damaged by floods in parts of two districts. Harvesting of dry crops and *paddy* is proceeding with outturn fair to normal. Generally sowings of *paddy* are ending and those of dry crops are proceeding normally for the most part. The condition of cattle is generally good. The supply of water is insufficient for irrigation in a few places chiefly in the Deccan and the Circars. The supply of fodder is generally sufficient. Prices show a downward tendency.

ADMINISTRATION REPORT

OF THE

INDO-EUROPEAN TELEGRAPH DEPARTMENT

FOR

1912—1913.

CAPITAL AND REVENUE ACCOUNT.

1. *Capital*.—The net outlay of the year under this head was *minus* Rs. 2,65,263 which diminished the progressive total to the end of the year to Rs. 1,17,72,828.

The following statement shows how the above decrease is made up:—

	Increase.	Decrease.	Total.
	Rs.	Rs.	Rs.
(i) Lines	—	3,23,169	—3,23,169
(ii) Buildings	3,401	—	3,401
(iii) Apparatus and Plant	1,147	—	1,147
(iv) Suspense:—			
(a) Stores	57,400	—	57,400
(b) Other Suspense	—	4,092	—4,092
Total	61,948	3,27,261	—2,65,263

(i) *Lines*.—This represents Rs. 532 under Gulf and *minus* Rs. 3,23,701 under Persian Section. Under Gulf Section the sum of Rs. 530 was expended on account of dismantling an existing line from Buhar to Karawari, &c., and Rs. 2 for Jask wireless. There was also a charge of Rs. 1,906 under cash, and Rs. 1,689 under Stores debited against the construction of the Henjam-Bunder Abbas Telegraph Line. This charge having been included in the bill against the Persian Government has been written back and held under advances pending recovery from that Government. Under Persian Section both the sums of Rs. 3,23,647 and Rs. 54 represent credits to the Capital Account. The former is due to an adjustment on account of three quarters' rental of the Central Persia Telegraph Line, withheld by this Department since July 1907, in recoupment of Capital outlay made on behalf of the Persian Government in accordance with Article IV of the Anglo-Persian Convention of 1901, and the latter being a recovery from the Persian Government on account of labour charges incurred for the reconstruction of the line from Teheran to Ardistan.

(ii) *Buildings*.—This sum was expended in the Gulf Section on account of constructing a drain in the compound of Telegraph Buildings at Karachi.

(iii) *Apparatus and Plant*.—This represents Rs. 461 under cash and Rs. 7.6 under Stores spent on account of the purchase of furniture and batteries in the Persian Section.

(iv) *Suspense*.—In the balance under this head there was a net increase of Rs. 53,308, made up of an increase of Rs. 57,400 under Stores, and a decrease of Rs. 4,092 under other suspense heads.

A summary of the year's transactions on Capital is given in Appendix A.

2. *Revenue*.—The earnings of the year were Rs. 20,11,947, or an increase of Rs. 34,618 as compared with those for 1911-12.

The expenditure during the year was Rs. 11,46,822 against Rs. 10,90,646 for 1911-12, or an increase of Rs. 3,56,176 over preceding year.

The net result is a profit of Rs. 5,65,125 as against Rs. 8,86,683, the profit for the year 1911-12. The fall in the profit is chiefly due to the adjustment of the accumulated rent of the Central Persia Telegraph Line referred to above.

3. The following tables show the difference under the principal sub-heads between the earnings and the expenditure* of the year under review and the preceding year; details are given in Appendix B.

Total	10,90,616	11,46,822	3,68,371	12,215
Net Increase	—	—	3,56,176	—

GULF SECTION.

The decrease under General Charges is principally due to smaller Expenditure under "Director," "Store-keeper," "Subsidies," and "Furlough Allowances," in England. The increase under "Line Maintenance" is chiefly due to the increased Expenditure under "Assistant Superintendent" and on "Repairs to Lines." Under "Cable Maintenance" the increase is mainly due to a larger issue of stores to "Repairs to Cable" than that of the last year, and also to increased expenditure on "Repairs to Cable Steamer 'Patrick Stewart'" counterbalanced by smaller charges against "Provisions" under "Cable Steamer." The increase under "Signalling" is chiefly due to larger charges under "Travelling Allowances" and on account of "Probationary Signallers" appointed during the year.

PERSIAN SECTION.

The increases are partially due to payment of "Famine Prices Compensation Allowances" sanctioned from 1st April 1912 under the heads "General Charges," "Line Maintenance," and "Signalling." The large increase under "General Charges" is chiefly due to an adjustment in connection with the rent of the Central Persia Telegraph Line under "Capital Expenditure." Under "Line Maintenance" the excess is due to larger expenditures under "Assistant Superintendent" and "Repairs to Lines." The increase under "Signalling" is due to larger payments on account of "Travelling Allowances" and "Office Contingencies," counterbalanced by a less payment on account of General Service clerks.

* Excluding the cost of the London Office Establishment (2,509L.), which is included as part of the Establishment of the Secretary of State for India.

NET REVENUE.

4. On a total capital expenditure of Rs. 1,47,72,828 a net profit of Rs. 5,65,125 was earned during the year, which gives a dividend of Rs. 3.825 per cent., *vide* Appendix D. The dividends earned during the past five years are as follows :—

Year.	Interest on Capital Per cent.
	Rs.
1908-1909	2.845
1909-1910	3.939
1910-1911	4.693
1911-1912	5.896
1912-1913	3.825

Between Teheran and London the Indo-European Company's lines were totally interrupted for an aggregate of 14 days 10 hours and 58 minutes.

7. On the Turkish route interruptions occurred between Fao and Constantinople lasting 33 days 18 hours. The working of this route continues to be unsatisfactory. The Fao-Bushire cable interrupted 9 hours 35 minutes during the year.

During the last five years the Turkish route west of Fao has been interrupted as follows :—

1908-1909.	1909-1910.	1910-1911.	1911-1912.	1912-1913.

For 1911-1912	0.213 per cent.
„ 1912-1913	0.20 „

13. *Complaints and Errors*.—The number received for investigation amounted to 228 being 97 more than the total for the year 1911-1912. Of this number, 212 were from Europe ; 156 from India.
